

Acknowledgements

Feeling gratitude and not expressing it is like wrapping a present and not giving it. It is the fairest blossom that springs from the soul. I would like to take this opportunity to thank all those who had been involved into the successful completion of this research work.

Firstly I would like to bow down to the almighty God for providing me the strength to complete this research work and shower his blessings upon me.

I would like to express my gratitude towards my mentor, Dr. Krutika K. Sawant, Professor of Pharmaceutics, Head, Department of Pharmacy, Faculty of Pharmacy, The M.S.University of Baroda for providing me an opportunity to become a part of her research group. She has been a constant source of encouragement and always guided me to the path of success. I am obliged to her for all the help provided to me during preparation of various manuscripts and writing this thesis.

I would thank Alembic Pharmaceuticals Ltd., Vadodara for providing the gift samples of Dabigatran Etxilate and Nisoldipine. I also acknowledge the gift samples of excipients from Abitec Corporation, USA, Gattefosse India Ltd, BASF, Croda and Merck.

I am grateful to Dr. Vaibhav Dubey, Manager, Sun Pharma Advanced Research Centre, Vadodara, for providing the help to perform High Pressure Homogenization study.

I am grateful to Mr. Ashish Trivedi, Manager, Gland Pharmaceuticals, Hyderabad for providing HPLC Column and valuable inputs.

I would thank Director, Sophisticated Instrumentation Centre For Applied Research & Testing (SICART), Sardar Patel Centre for Science & Technology, Vallabh Vidyanagar for providing facility of Transmission Electron Microscopy.

I would thank Head, CHARUSAT- Changa, for providing facility of Tail Cuff Sensor (BIOPAC) Instrument for pharmacodynamic studies.

I would thank Suraktam Blood Bank, Vadodara, for providing human plasma for *in vivo* studies.

I am thankful to Dr. Bina R. Sengupta, Department of Chemical Engineering Faculty of Technology and Engineering for providing the facility of Viscometer.

I thank Dr. Sarita Gupta, Head, Dr. Vikram Sarabhai Institute of Cell and Molecular Biology, The M. S. University of Baroda for providing Flow cytometry and Confocal facility.

Special thanks to Madhuri Baghel, Priya Shah and Mohit Mahajan for their help in IR and DSC studies. I would like to thank Hardik and Jaimin for their help during animal studies.

It gave me immense pleasure to have Chintan Patel, Reshma Jain, Prachi Bhamre, Lalji Rathod, Parv Jani, Kinjal Parikh and Rahul Dhande by my side in this joyous journey.

'Friend in need is friend indeed'. Friends those made this phrase true for me are Mitali Patel, Praveen Shrivastav, Abhinesh Kumar and Abhishek Pathak. Special thanks to all of these for their constructive suggestions and never ending support.

I am sincerely thankful to the University Grants Commission (UGC), New Delhi for the Senior Research Fellowship provided to me during this course which helped me to carry out the research work without any financial constraint.

My family deserves special mention for their constant support and prayers. Whatever efforts I have put to complete this work, would not have been possible without their support. I would like to thank my husband, Piyush, who inspired me to pursue PhD. I would like to thank my son, Praneel, who patiently waited all throughout these years to complete my PhD. It also reminds me of my late father in law who supported my decision to pursue PhD. I am thankful to my mother in law who extended her support to me at each stage, whenever I needed it the most. It was a long cherished dream of my late father that I should pursue doctoral studies. It was his blessings along with support of my mother that I have completed my thesis. Special thanks to my brothers, sister and in-laws family for their support.

I would like to thank the non-teaching staff members at Shri G.H. Patel Pharmacy building and Kalabhavan for their kind cooperation.

Finally, I take this opportunity to thank everyone who has been directly or indirectly associated with the successful completion of my research work, as well as express my apology that I could not mention personally each and everyone.

Veenu P. Mundada
