

Acknowledgement

First and foremost, I would like to credit my entire honor to God, Lord Swaminarayan because my driving force behind anything that I have done, I am doing and I will do is solely the grace of God Almighty. He is the reason behind my existence, He is the part of soul inside me, He is the air and the blood that flows within me. My dear Swamiji, P. P. Hariprasad Swami, has never let go of my hand; He has continuously guided me in the right direction and he has protected my soul from any harm that came my way. All my studies and research and everything I have accomplished in my lifetime are nothing compared to his supremacy, like a drop of water in a vast ocean.

“It always seems impossible until it is done” a well said quote by Nelson Mandela. Though it is hard to walk on difficult roads, it leads you to the most beautiful destinations. The past few years of Ph.D. were challenging and have taught me many lessons, but the environment and people around me always nurtured me with positive energy persistently. Thus, it is an honor for me to express my thanks to all those who were the part of my memorable journey.

*Words wouldn't adequate to express my gratitude for my parents without whom I would have accomplished nothing. My father, **Mr. Suresh Bhatt**, is the first person who dreamt for my Ph.D. right from the time of my undergraduate studies. “No matter in which field you are, you should do the best in that field” are his words which always give me inspiration and confidence to fight any difficult situation. My mother, **Mrs. Priti S. Bhatt**, is a librarian who from my childhood only taught me importance of books. She has raised me in all the difficulties and who has stayed by my side with the kind of love one could never imagine of. My gratitude for my parents would be incomplete without thanking my father-in-law **Mr. Hasmukhbhai Patel** and **Mrs. Geetaben Patel**. Though there were some challenging situation came across my way, but because of their support, blessings and love, I never stopped.*

“Guru is an inspiration” and I am so lucky to bless by two gurus as my supervisor and co-supervisor.

*With due respect, I thank my supervisor, **Dr. Rajashree C. Mashru**, Associate Professor, Faculty of Pharmacy, The Maharaja Sayajirao University of Baroda for her privileged guidance, suggestions and help in all possible aspects to make me achieve my goals. She always encouraged me to opt for the new ideas and believed in me. Her observations and comments helped me to establish the overall direction of the research and to move forward with investigation in depth. I am so thankful to her not only because she guided me for Ph.D. but also for her useful lessons of a divine life.*

*With deep sense of respect and gratitude, I express my gratitude to **Dr. Ambikanandan Misra**, Professor in Pharmaceutics, Faculty of Pharmacy, The Maharaja Sayajirao University of Baroda. He is the reason behind what I am today. He is the person whom I admire the most. His immense experience and immeasurable knowledge showed me the way to make the work informative and exhaustive. His constant encouragement and appreciation kept me motivated throughout and helped me immensely in completing this work on time. Great inventors and leaders are not born; they are motivated and inspired to do great things by great teachers like Misra sir!*

*A journey becomes easy when you have a good companion. I would like to share my accomplishment with my husband, **Mr. Jay Patel**, who believed in my*

*dreams and helped me to achieve those dreams. He is the best companion who made my journey so easy and comfortable. I am extremely thankful to him for all his support and love when I needed. With this I would also like to thank my sister **Arjavi**, brother **Anand** and all my family members for their continuous inspiration and support throughout my path.*

*Words would not fit if I try to thank my friends **Rohan Lalani** and **Dr. Imran Vhora**. They have been my support system throughout my journey. Imran, with whom I have discussed all my difficulties that came in my way during the whole tenure of work and the best thing was that he always had solutions of all those challenges. I am thankful to him for all his help, guidance and suggestions. Rohan, without whose help I was unable to complete the things in time. He listened me patiently, stood by my side always, motivated me and supported me in challenging times. God blessed me with such friends who have been with me always to fight the difficult situations and to cherish the success.*

*I express my special thanks to **Dr. Sushilkumar Patil**, his support and sharing his valuable previous experiences, providing glimpse of the anticipated challenges and furnishing viable solutions to them which helped me develop better research methodology.*

*I am grateful to all co-researchers, my team members and my friends **Vivek Patel**, **Jitendra Amrutiya**, **Hinal Patel** and **Ankit Javia** for their dynamic support throughout my work. I am indebted to my colleague from chemistry, analysis and pharmacology labs, **Mahesh Baramade** and **Mayank Sharma**, **Mohit sir**, **Hardik Sir**, **Jaimin**, **Kinjal** who were always so helpful and provided me their assistance in numerous ways during various stages of my dissertation.*

*I am thankful to **Dr. S.J. Rajput**, Dean, Faculty of Pharmacy, The Maharaja Sayajirao University of Baroda for providing me the necessary facilities for the research work. I would like to sincerely express my gratitude to **Dr. M. R. Yadav**, **Dr. S. P. Rathod**, **Dr. Kirti Patel**, **Late Dr. Rajani Giridhar**, **Dr. K.K. Sawant**, **Dr. Hetal Thakkar**, **Dr. Pankaj Nagar** and **Mrs. Hemal Tandel**, Faculty of Pharmacy, The Maharaja Sayajirao University of Baroda, who have always been keen in professional excellence of the students of the department.*

*I would like to personally thank my departmental seniors **Dr. Mukesh Kumar**, **Dr. Manjappa Arehalli**, **Dr. Nirav Khatri**, **Dr. Dipesh Baradia**, **Dr. Riddhish Patadia**, **Dr. Chintan Vora**, **Dr. Deepa Patel**, **Dr. Manisha Lalan**, **Dr. Girish Kore**, **Dr. Atul Kolate**, **Dr. Chetan Yewale** and **Dr. Mohan Rathi**.*

*I am thankful to **Shri G H Patel Pharmacy Building** and **TIFAC-CORE** in **NDDS**, Pharmacy Department, The M. S. University of Baroda, and all person associated with this sophisticated research facility having a confluence of information and infrastructure to smoothly carry out the research studies. In this regard, I extend my gratitude to **Vaishali Madam**, **Heenaben**, **Praghneshbhai**, **Chandrkantbhai**,*

Bhoomi Madam for being very kind and considerate in material procurements, accounting etc. I sincerely thank all the non-teaching staff for the smallest help they have offered. My special thanks to Nagin bhai, Jagdish bhai, Pravin bhai and Pramod bhai.

I also take opportunity to extend my gratitude for Jigar Shah, Microbiology Department, Faculty of Science, The Maharaja Sayajirao University of Baroda for his help in teaching me gel electrophoresis techniques. My thanks to, Department of Metallurgy & Material Engineering of our university for providing me SEM and XRD facilities. I am thankful to Prof. Sarita Gupta, Co-ordinator, Dr. Vikram Sarabhai Science Center, M. S. University of Baroda for her support to carry out cell line studies i.e. confocal microscopy and FACS. I am thankful to Komal mam, Dr. Akhilesh and Pooja mam for their continued guidance and practical support on the cell line studies.

I would like to acknowledge Sun Pharma Advanced Research Center, Vadodara for supporting on TEM and Circular Dichroism studies. I thank Milind, Kaushal Bhai, Dr. Sachin Naik, Dr. Arivozhi Mohan and Dr. S. Bhoumick for their support for the TEM and CD analysis of the developed formulations. I am thankful to Zydus Research center for providing gift sample of cell line for research work. My special thanks to Mr. J. D. Patel, Dr. Pankaj Kalita, Dr. Abhijit Chatterjee, Dr. Debdutta Bandyopadhyay, Dr. Krishnarup Ghoshdastidar and Dr. Mukul Jain.

I am thankful to Cyclo lab, Hungary for providing me gift samples of cyclodextrins. My special thanks to Lipoid, Germany for providing lipids. I express my gratitude for Dr. Khandan Keyomarsi, Professor, Department of Experimental Radiation Oncology, Division of Radiation Oncology, The University of Texas MD Anderson Cancer Centre, Houston, TX, USA, for providing me gift sample of cell line. My deep appreciation to Dr. Kim Orth, Professor at Department of Molecular Biology, Biochemistry at UT Southwestern Medical centre, Dallas, Texas, and her staff Hillery and Linda, for providing me the funds to procure cell line from ATCC. I am thankful to Dr. Aurelian Radu, Scientist, Mount Sinai Hospital, NY, USA for his guidance for selecting the strategy of work.

I am grateful to University grant commission (UGC), India for their initiatives in funding and fellowships for research students and for awarding me UGS-BSR Fellowship.

Last but not the least, I express my gratitude and apologize to everybody whose contribution I could not mention. I would like to express my deepest appreciation to all those who aided me to complete this work.

With love

Priyanka.
