

## LIST OF TABLES

<b>Part I : Potential NMDA Receptor Antagonist</b>		<b>Page No</b>
Table 4.1	Neuroprotective and A $\beta$ <sub>1-42</sub> aggregation inhibitory effects of the synthesized benzazepine derivatives.	62
<b>Part II : Novel Cholinesterase Inhibitors</b>		<b>Page No</b>
Table 4.1	Yield and m.p of various substituted aminobenzamides	29
Table 4.2	AChE and BuChE inhibitory activities (IC <sub>50</sub> values) and inhibition of A $\beta$ <sub>1-42</sub> aggregation by the test compounds	43
Table 4.3	Cell viability, neuroprotection and free radical scavenging activity of the test compound ( <b>75</b> ) in the human neuroblastoma SH-SY5Y cell line and DPPH assay	44
Table 5.1	Synthesis of different <i>N</i> -substituted isatoic anhydrides ( <b>1-7</b> )	49
Table 5.2	Analytical data of different <i>N</i> -substituted isatoic anhydrides ( <b>1-7</b> )	50
Table 5.3	Synthesis of <i>N</i> -substituted 2-(4-bromobenzylamino)benzamides ( <b>8-16</b> )	51
Table 5.4	Analytical data of <i>N</i> -substituted 2-(4-bromobenzylamino)benzamides ( <b>8-16</b> )	51
Table 5.5	Synthesis of <i>N</i> -substituted 2-(4-methoxybenzylamino)benzamides ( <b>17-25</b> )	52
Table 5.6	Analytical data of <i>N</i> -substituted 2-(4-methoxybenzylamino)benzamides ( <b>17-25</b> )	53
Table 5.7	Synthesis of different <i>N</i> -substituted 2-(phenylethylamino)benzamides ( <b>26-33</b> )	54
Table 5.8	Analytical data of different <i>N</i> -substituted 2-(phenylethylamino)benzamides ( <b>26-33</b> )	54
Table 5.9	Synthesis of different <i>N</i> -substituted 2-methylaminobenzamides ( <b>34-38</b> )	56
Table 5.10	Analytical data of different <i>N</i> -substituted 2-methylaminobenzamides ( <b>34-38</b> )	56
Table 5.11	Analytical data of <i>N</i> -(4-methylbenzyl)-2-ethylaminobenzamide ( <b>39</b> )	57
Table 5.12	Synthesis of different <i>N</i> -substituted 2-allylaminobenzamides ( <b>40-44</b> )	57
Table 5.13	Analytical data of <i>N</i> -substituted 2-allylaminobenzamides ( <b>40-44</b> )	57
Table 5.14	Synthesis of different <i>N</i> -substituted 2-benzylaminobenzamides ( <b>45-49</b> )	58
Table 5.15	Analytical data of different <i>N</i> -substituted 2-benzylaminobenzamides ( <b>45-49</b> )	58
