

CONTENTS

		<u>Pages</u>
Chapter I	Introduction	1 - 29
Chapter II	Studies on the chick embryonic tibiae cultivated in a chemically defined medium	30 - 67
	Materials and Methods	32 - 49
	Results and Discussion	49 - 67
	Summary	67
Chapter III	Studies on some of the enzymes of carbohydrate metabolism and chemical composition of hen tibiae	68 - 101
	Materials and Methods	70 - 81
	Results and Discussion	82 - 100
	Summary	100 - 101
Chapter IV	Comparative data on activities of enzymes in chick embryonic tibiae grown <u>in vitro</u> and <u>in vivo</u>	102 - 113
	Materials and Methods	103 - 104
	Results and Discussion	104 - 112
	Summary	112 - 113
Chapter V	General Summary	114 - 118
	Bibliography
