Chapter – I	**CONCEPTUAL FRAMEWORK**	**1 - 69**
1.0	Introduction	1
1.1	Education in values: developing perspectives	8
1.2	Main component in value education – the teacher	29
1.3	Concept of values	34
1.4	A brief historical survey of the concept of attitude	40
1.4.1	Traditional definitions of attitude	43
1.4.2	Relationship between attitudes, values and other personality constructs	47
1.5	Rationale for the study	53
1.6	Problem specifications	60
1.7	Statement of the problem	60
1.8	Objectives of the study	60
1.9	Hypotheses	61
1.10	Explanation of the terms	63
1.11	Operationalisation of the term	68
1.12	Delimitation of the study	68
Chapter – II	**REVIEW OF RELATED LITERATURE**	**70 - 200**
2.0	Introduction	70
2.1	Studies at national level	72
2.2	Studies at international level	149
2.3	Studies related to different levels on values and attitudes	175
2.4	Research gap in value education research, needing attention	178
2.5	Summary of national and international studies and implications for the present study	182
Chapter – III	**METHODOLOGY**	**201 - 214**
3.0	Introduction	201
3.1	Design of the study	201
3.2	Sources of data collection	203
3.3	Population	204
3.4	Sample	204
3.5	Tool	205
3.6	Data collection procedures to achieve the objectives	210

3.7	Data analysis	214
Chapter – IV	**CONSTRUCTION AND STANDARDIZATION OF THE TOOL**	**215 - 282**
4.0	Introduction	215
4.1	Measurement of attitude	216
4.2	Attitude scales	219
4.3	Construction and standardisation of the attitude scale	226
4.3.1	STEP I collecting and editing of statements	226
4.3.1.1	Identification of the components of the traditionally accepted universal human values-truth, beauty, goodness	227
4.3.1.1.1	Value–truth	227
4.3.1.1.2	Value–beauty	229
4.3.1.1.3	Value–goodness	231
4.3.1.2	Brief description of the fifteen components identified for the traditionally accepted universal human values–truth, beauty, goodness	233
4.3.1.3	Development of *universe of content*	247
4.3.1.4	Development of statements	248
4.3.1.5	Informal criteria for attitude statements	249
4.3.1.6	Expert suggestions	250
4.3.2	STEP II try-out of the scale	253
4.3.2.1	Scoring procedure	254
4.3.2.2	Interpretation of score	255
4.3.2.3	Administration of the try-out scale	256
4.3.3	STEP III selection of statements	257
4.3.4	The final draft of attitude scale	261
4.3.4.1	Administration of the final draft of the attitude scale	262
4.3.5	Psychometric properties of developed attitude scale	263
4.3.5.1	Reliability	264
4.3.5.2	Validity	269
4.3.6	Norms	275
Chapter – V	**ANALYSIS AND INTERPRETATION OF DATA**	**283 - 404**
5.0	Introduction	283
5.1	Analysis and interpretation of the data pertaining to objective 2-nature of distribution	283
5.1.1	The nature of distribution of the attitude scores of the 600 in-service teachers towards the traditionally accepted universal human values-truth, beauty, goodness	284
5.1.1.1	The nature of distribution of the attitude scores of the 600 in-service teachers towards the fifteen components of the traditionally accepted universal human values-truth, beauty, goodness	289
5.1.2	The nature of distribution of the attitude scores of the female and male in-service teachers towards the traditionally accepted universal human values - truth, beauty, goodness	306
5.1.2.1	Comparison of distributions of the attitude scores of female and male in-service teachers towards the traditionally accepted universal human values-truth, beauty, goodness	318
5.1.3	The nature of distribution of the attitude scores of graduate and postgraduate in-service teachers towards the traditionally accepted universal human values-truth, beauty, goodness	320
5.1.3.1	Comparison of the distributions of the attitude scores of graduate and postgraduate in-service teachers towards the traditionally accepted universal human values–truth, beauty, goodness	333

5.1.4	The nature of distribution of the attitude scores of primary, secondary, higher secondary in-service teachers towards the traditionally accepted universal human values-truth, beauty, goodness	335
5.1.4.1	Comparison of distributions of the attitude scores of primary, secondary, higher secondary school in-service teachers towards the traditionally accepted universal human values–truth, beauty, goodness	355
5.1.5	The nature of distribution of the attitude scores of the in-service teachers (with experience up to 10 years, 11-20 years, 21 years and above) towards the traditionally accepted universal human values - truth, beauty, goodness	357
5.1.5.1	Comparison of the distributions of the attitude scores of the in-service teachers (with experience up to 10 years, 11-20 years, 21 years and above) towards the traditionally accepted universal human values-truth, beauty, goodness	378
5.2	Analysis and interpretation of the data pertaining to objective 3-hypothesis testing	381
Chapter – VI	**SUMMARY, FINDINGS, CONCLUSION, DISCUSSION AND SUGGESTIONS**	**405 - 475**
6.0	Introduction	405
6.1	Summary of the study	405
6.1.1	Problem specifications	412
6.1.2	Statement of the problem	412
6.1.3	Objectives of the study	413
6.1.4	Hypotheses	413
6.1.5	Explanation of the terms	415
6.1.6	Operationalisation of the term	420
6.1.7	Delimitation of the study	420
6.1.8	Methodology	420
6.1.8.1	Design of the study	421
6.1.8.2	Sources of data collection	421
6.1.8.3	Population	421
6.1.8.4	Sample	422
6.1.8.5	Tool	423
6.1.8.6	Psychometric properties of the developed Attitude Scale	429
6.1.8.6.1	Reliability	429
6.1.8.6.2	Validity	429
6.1.9	Norms	430
6.1.10	Data analysis	434
6.2	Major findings of the study	434
6.2.1	Major findings based on the nature of distribution	435
6.2.2	Major findings based on hypotheses testing	447
6.3	Discussion	456
6.4	Conclusion	471
6.5	Suggestions for further research	474
