Title	Page Number
Synopsis	1-15
Chapter 1 Introduction	16-77
Chapter 2 Lysosomal membrane stabilizing effect of antimalarials - an <u>in vitro</u> study	78-102
Chapter 3 Effect of antimalarials treatment on rat liver lysosomal function an <u>in vivo</u> study	103-129
Chapter 4 Treatment with antimalarials adversely effects the oxidative energy metabolism in rat liver mitochondria	130-154
Chapter 5 Effect of antimalarials treatment on rat liver mitochondrial ATPase kinetics properties	155-174
Chapter 6 Effect of antimalarials treatment on rat liver mitochondrial lipids	175-195
Chapter 7 Effect of antimalarials on human erythrocyte membrane acetylcholinesterase	196-231
Chapter 8 Effect of antimalarials on human plasma butyrylcholinesterase	232-266
Chapter 9 A simplified micromethod for phosphate determination and its application for inorganic phosphate analysis and in enzyme assays	266-301
