

TABLE OF CONTENTS

Chapters	Title	Page No
	Synopsis	i - xi
Chapter I	Introduction	1 - 77
1	General aspects of vitiligo	1
1.1	Historical references	1
1.2	Prevalence	1
1.3	Psychological effects	2
1.4	Types of vitiligo	2
1.5	Genetics of vitiligo	3
1.6	Skin	4
1.6.1	Structure of skin	4
1.6.2	Color of the skin	4
1.6.3	Melanocytes	5
1.7	Etiopathogenesis of vitiligo	8
1.7.1	Neurochemical hypothesis	8
1.7.2	Oxidative stress hypothesis	13
1.7.2.1	Free radicals	13
1.7.2.2	Reactive oxygen species	13
1.7.2.3	Sites of generation	14
1.7.2.4	Reactive nitrogen species	16
1.7.2.5	Antioxidant defense mechanisms	17
1.7.2.5.1	Superoxide dismutase	17
1.7.2.5.2	Catalase	18
1.7.2.5.3	Glutathione peroxidase	19
1.7.2.5.4	Glutathione reductase	20
1.7.2.5.5	Glutathione S transferase	20
1.7.2.5.6	Glucose 6 phosphate dehydrogenase	20
1.7.2.5.7	Reduced glutathione	21
1.7.2.5.8	Vitamin E	22
1.7.2.5.9	Lipid peroxidation	23
1.7.2.6	Enzymatic and non-enzymatic antioxidant levels reported in vitiligo	25
1.7.3	Autoimmune hypothesis	27
1.7.3.1	Humoral immune response in vitiligo	28
1.7.3.2	Cell mediated immunity	29
1.8	Oxidative stress and the immune system in vitiligo pathogenesis	32
1.9	Vitiligo and apoptosis	33
1.10	Convergence theory	34

1.11	Single nucleotide polymorphisms	35
1.11.1	SNP analysis	37
1.11.1.1	SNP Identification	37
1.11.1.1.1	SSCP detection	37
1.11.1.1.2	Heteroduplex analysis	37
1.11.1.1.3	Direct DNA sequencing	38
1.11.1.1.4	Variant detector arrays	38
1.11.1.2	SNP genotyping methods	38
1.11.2	SNP based association studies	39
1.12	Candidate genes associated with vitiligo susceptibility	39
1.12.1	AIRE	40
1.12.2	CTLA 4	40
1.12.3	Catalase	40
1.12.4	COMT	41
1.12.5	LMP and TAP	42
1.12.6	MC1R and ASIP	42
1.12.7	Angiotensin converting enzyme gene	42
1.12.8	Estrogen receptor gene	43
1.12.9	Lymphoid protein tyrosine phosphatase (PTPN 22)	43
1.12.10	KIT	43
1.12.11	FOXD3	44
1.12.12	TNF α	44
1.13	Linkage and association studies	45
1.13.1	HLA associations	45
1.13.2	Genome wide linkage analyses	46
1.14	Treatment	48
1.14.1	Non-surgical therapies	48
1.14.1.1	Psoralen photochemotherapy	48
1.14.1.2	Broadband UVB	49
1.14.1.3	Narrowband UVB	49
1.14.1.4	Topical immunomodulators	49
1.14.1.5	Calcipotriol	50
1.14.1.6	Pseudocatalase	50
1.14.1.7	Khellin and UVA	50
1.14.2	Surgical therapies	51
1.14.2.1	Full thickness punch grafts	51
1.14.2.2	Split thickness grafts	51
1.14.2.3	Suction blister grafts	52
1.14.2.4	Cultured epidermal grafts	52
1.14.2.5	Non-cultured keratinocytes and melanocytes	52
1.14.2.6	Cultured melanocytes	52
1.14.3	Depigmentation	52
1.15	References	53

1.16	Objectives	78
Chapter II	Vitiligo: Clinical profiles in Vadodara, Gujarat	79 - 87
2.1	Introduction	79
2.2	Materials and methods	79
2.3	Results	80
2.4	Discussion	83
2.5	References	86
Chapter III A	The antioxidant status of vitiligo patients of different age groups	88 - 117
3A.1	Introduction	88
3A.2	Materials and methods	89
3A.3	Results	101
3A.4	Discussion	110
3A.5	References	114
Chapter III B	The antioxidant status of vitiligo patients of different clinical types	118 - 131
3B.1	Results	118
3B.2	Discussion	124
3B.2	References	129
Chapter IV A	Association of catalase T/C exon 9 polymorphism in relation to catalase activity and oxidative stress with vitiligo susceptibility in Gujarat population	132 - 143
4A.1	Introduction	132
4A.2	Materials and methods	133
4A.3	Results	135
4A.4	Discussion	138
4A.5	References	140
Chapter IV B	Association of glutathione peroxidase codon 200 polymorphism in relation to its activity and oxidative stress with vitiligo susceptibility in Gujarat population	144 - 153
4B.1	Introduction	144
4B.2	Materials and methods	145
4B.3	Results	146
4B.4	Discussion	150
4B.5	References	152
Chapter V	Superoxide dismutase 1 protein content in relation to SOD activity in vitiligo patients compared to controls	154 - 159
5.1	Introduction	154
5.2	Materials and methods	154
5.3	Results	155
5.4	Discussion	157

5.5	References	158
Chapter VIA	Evaluation of autoimmune hypothesis in Gujarat vitiligo patients	160 - 172
6A.1	Introduction	160
6A.2	Materials and methods	161
6A.3	Results	164
6A.4	Discussion	168
6A.5	References	171
Chapter VIB	Evaluation of oxidative stress and autoimmune hypotheses at the onset of vitiligo	173 - 177
6B.1	Introduction	173
6B.2	Materials and methods	173
6B.3	Results	174
6B.4	Discussion	175
6B.5	References	177
Chapter VII	Role of acetylcholine esterase in the pathogenesis of vitiligo	178 - 188
7.1	Introduction	178
7.2	Materials and methods	179
7.3	Results	181
7.4	Discussion	185
7.5	References	187
	Conclusions	189
	Annexure I	191
	Publications and presentations	193
