

Acknowledgements

Though only my name appears on the cover of this thesis, a great many people have contributed to its production. I owe my sincere gratitude to all those who have made this possible and because of whom my Ph.D. experience has been one that I will cherish forever.

First and foremost, I would like to thank my guide and teacher, **Prof. S. D. Telang**. Her mentorship provided me with the perfect balance of research independence and support since my postgraduate years. Her constant help, inspiring guidance, constructive criticisms and patient listening concerning my research work, made me come out with an acclaimed quality work. I respect her belief and confidence in me, which made it possible to explore new research ideas that provided incentive to achieve goals. I shall continue to look to her as a role model regardless of my geographical location. Once again my sincere thank to her for all the help and support throughout my tenure of Ph.D.

My heartfelt gratitude towards my co-advisor Dr. C. N. Ramchand, who has introduced me to the world of nanotechnology. His frank opinions and fruitful ideas enabled me to think in the line of “futuristic world of research”.

My sincere acknowledgement and thanks to Dr. G. Nareshkumar, Head of Biochemistry Department for his support and for providing all the scientific and departmental facilities to achieve my research objectives.

I am also very grateful to Prof. L. J. Parekh for always being supportive and enlightening me with the recent scientific happenings and encouraging me to develop fighting spirit in times of difficulty.

My sincere gratitude to, Prof. Tara Mehta (Ex-head, Biochemistry Department), who has been a constant source of inspiration.

My teachers namely Dr. Shashikant Acharya, Dr. Rasheedunnisa Begum, Dr. Sarita Gupta, Dr. Jayshree Pohnerker, Dr. M.D. Jani, Dr. Ratna Prabha and Dr. Pushpa Robin especially owe a special place in my heart since they inculcated the scientific spirit in me and helped me develop analytical thinking much necessary for research.

A very special thanks to Prof. Ajay Kapoor (University of New Castle upon Tyne, UK) for providing me an opportunity to work in his lab. I am also grateful to Dr. Hari Chirakkal (University of Sheffield, UK) for helping me in performing some of the experiments at his lab.

My sincere thanks to Dr. Rajamannar (Vice President, Sun Pharmaceutical Ltd, Vadodara, India) for allowing me to avail the facility of spectrofluorimeter at their research center.

I am also grateful to Prof. Balaraman (Pharmacy Department, M. S. University, Vadodara, India) for his valuable suggestions in designing of the animal experiments.

I also thank (Late) Dr. Madhavrao (Chemistry Department, M S University of Baroda, India) for performing FTIR analysis of magnetite particles for my research work.

I am also grateful to all the non-teaching staff members of the biochemistry department, especially Mr. Pethe, Axitaben, Manishbhai, Shaileshbhai and Rameshbhai for their co-operation and support.

Also, sincere thanks to the animal house In charge Dr. Sarita Gupta and the staff including Mr Suresh Nate, Rameshbhai, Vijaybhai and Shankar kaka for their kind support in fulfilling my requirements of animals required in my study.

I am also indebted to all my friends and seniors from Sun Pharma, especially Dr. Burade, Dr. Sanjay, Dr. Murthy, Arshadbhai, Jerry, Rupal, Mittal, Dipali, Dhanya and Ruby. A very special thanks to Ms. Nimisha for her help and support throughout my Ph.D.

A special thanks to all my friends Niraj, Keyur, Prashant, Shajil, Gopit, Chirayu, Aditi, Namita, Heena, Jyotika, Samir, Maulik, Pradeep, Hemendra, Vikas, Divya, Prakash, Gauri, Jigna and Jisha with whom I enjoyed my stay and would forever cherish their presence in my life.

I would like to specially acknowledge Hiren and Iqbal, who provided invaluable help and moral support during my stay in the department.

“Thanks” would be a very small word to express the kind of support and help that my friend Munjal had provided throughout my tenure.

I also thank, Mansi, Harsiddhi, Chitvan, Swati and Ritu, who had helped me during their dissertation work.

No work of this size could be accomplished without the sacrifice of social and family life. I would like to specially acknowledge my parents, my brother and sister and well-wishers for being a constant source of love, concern, support and strength all these years.

Finally, I thank the Almighty God for bestowing me with such wonderful parents, brother, sisters and friends, and the scientific aptitude for completing my research work.

Zainulabedin M. Saiyed
