

ACKNOWLEDGMENTS

This thesis is encompassing the scientific work for the accomplishment of my Ph.D., and I am glad to put an 'end' to this exciting phase to begin the new endeavors of my life. The present work is not the efforts of solely myself but the solidarity of many people who supported and encouraged me during this work. I took the honor to acknowledge all those people who are the root & stem of my Ph.D. thesis.

I am grateful to **Prof. Parimal Vyas**, Vice-Chancellor and **Prof. Yogesh Singh**, Ex-Vice-Chancellor, The Maharaja Sayajirao University of Baroda, Vadodara for the opportunity to work in this prestigious institution. I am also obliged to Lt. **Prof. Nikhil Desai**, Ex-Dean, **Prof. AC Sharma**, Ex-Dean and **Prof. Haribhai Kataria**, Dean, Faculty of Science, and **Prof. C. Ratanprabha**, Head, Dept. of Biochemistry for their support.

My sincere gratitude to my doctoral dissertation supervisor **Prof. Sarita Gupta**, Department of Biochemistry, for her continuous encouragement and support in the present work. Her critical and valuable suggestions made this work more meaningful. I am grateful for her belief in me and providing the complete freedom to think, plan, and work independently to execute experiments. The work and techniques learned in the SGL boosted my scientific perception and directed my scientific career very well.

I express the deepest sense of gratitude to my external doctoral committee member, **Dr. Sharad Gupta**, for sparing his valuable time on numerous occasions for project discussions. He also aided the analysis of patient tissue histopathology and educated me on the basics of prostate histopathology. His fun-loving nature and joyous talk brighten the lab gatherings and parties.

My heartfelt thanks and indebtedness to **Dr. Ajit Gohil, Head** and his staff, especially **Ms. Daksha**, Head Nurse at Department of General Surgery, GMERS hospital, Gotri, Vadodara for his valuable help to provide me with patient tissues. His astonishing simplicity and willingness to help is appreciable.

I would like to acknowledge **Dr. Nitin Nage and his team**, Sun Pharmaceuticals, Vadodara for allowing me to perform LC experiments in his laboratory. His expert discussion helped me to improve the experiment for my thesis work. I am also grateful to **Dr. Virupakshi Soppina**, IIT Gandhinagar, for allowing me to work with the Confocal facility in his lab.

My deepest sense of gratitude to **Prof. Rajesh Singh** and **Dr. Ravi Vijayvargia** for being my doctoral committee members and providing all the aid and encouragement for my dissertation work. Their passion for science and approachability for discussions is inspiring, and to be learned attribute.

My sincere thanks to **Prof. M. S. Patel**, Sunny-Buffalo, USA **Prof. Girish Shah, and Prof. Rashmi Shah**, University of Laval, Canada, and **Prof. Taruna Gupta**, NIRRH, India, for their valuable comments and encouragement in my project.

I am sincerely grateful to the faculty members of the Department of Biochemistry, **Prof. G. Naresh Kumar, Prof. Rasheedunnisa Begum, Prof. Pushpa Robin, Prof. C. Ratna Prabha, Dr. Sanjeev Upadhyay, Dr. Shashikant Acharya, Dr. Laxmipriya N., Dr. Jayashree Pohnekar, Dr. Devesh Suthar** for their valuable suggestions during the annual presentations and their constant support throughout my dissertation work. I am also grateful to **Prof. Vihas Vasu** and **Dr. Prakash Pillai** for sparing their time for the evaluation of my work and valuable suggestions.

The SGL family was always at their best to support everyone in the lab. The project wouldn't have been accomplished without two admirable colleagues and friends, **Dr. Tushar Patel**, Postdoctoral Fellow, NIH, Bethesda, and **Dr. Ragitha Chruvattil**, Sun pharmaceuticals, Vadodara, the science souls of the lab. Their passion for science motivated me to reach the set goal and helped in building and executing my project. I am fortunate to begin my journey with **Dr. Tushar Patel**, *the science guy and foodie*, who schooled me with diverse molecular techniques and designing the experiments. I also acknowledge him for providing Δ NP63 and Histone-H3 antibodies for my project. His constant discussions encouraged me to explore more in my project. I would also like to thank him and his wife **Dr. Krishna** for her suggestions and kind hospitality during my USA visit. The scientific discussions and guidance of **Dr. Ragitha Chruvattil**, *the master troubleshooter and google of the lab*, were always productive to my work. She remained approachable at any time for experimental designs and solutions. I am immensely thankful for her constant guidance, help, and motivation throughout my project and manuscript preparations. I began this project with **Dr. Akhilesh Prajapati**, *the man behind the scene*, whose expertise, guidance, and motivation sailed me through my dissertation work. I appreciate his efforts in positive discussions and accurate suggestions for experiments and presentations. I would also like thank to the most time-efficient member of the lab, **Dr. Muskaan Belani**, *the workaholic one* who always inspired everyone in the lab. During my journey, I have always shared my work with my friend and colleague, **Mitul Vakani**. He helped in many ways especially experimental discussions and making resources

available to improve the experiments. Our lab “Jugaad” was one of the best things I have learned with him to keep our research moving. His passion, hard-working, and never-give-up attitude to experimental perfection are admirable and makes him *the perfectionist of the lab*. Speaking of SGL, **Dr. Abhay Srivastava** has a special place among all of the members. If you need things to work meet **Dr. Abhay Srivastava**, *the guy who gets things*. I appreciate his suggestions and support for my project. The experiments of the SGL have always been very supported by confocal and flow cytometry skills by **Dr. Komal Rawal**, *the resource person*. I also acknowledge her for running our experiments diligently and patiently. I am fortunate to share the lab with **Gurprit Bhardwaj**, *the data-machine of the lab*. Her willingness to learn new things and accomplish her targets is a commendable trait. I also appreciate her patience for enduring the fun moments made by me and Mitul. My deepest sense of gratitude to the most energetic juniors of the lab, **Kishan Purohit** and **Pankti Shah**, *the mitochondrion of the lab*. Their experimental, intellectual, and lab management help were immensely supportive in many ways to accomplish my work. I also extend my gratitude to **Ankit Bhatt**, Sr. Researcher, Sun Pharma and SGL member, who provided me AR-V7 antibody to accomplish my work. The Lab Trips to Jaisalmer, Vishal khadi, Sardar Sarovar, Rasulpur, DD Circle hangouts, Dal-Baati-Churma, and Pizza parties with all of you guys were the most memorable moments to reminisce.

Everyone needs a friend to steer-steady the ship in the long run. I am privileged to have my best friend, **Shahnawaz Jadeja** in this department as my fellow scholar. We have been working side-by-side for a decade from college days to professional life, to our PhDs. The most awaited “Coffee time” of the tiring day was a must to take the mind off the stress with adrenalin-fueled scientific discussions and positive energy.

It was a pleasure to work with fellow research scholars, **Dr. Ashutosh**, **Dr. Zalak**, **Dr. Rishikesh**, **Dr. Swapnali**, **Dr. Ujjaval**, **Dr. Ankita**, **Komal**, **Hemang**, **Dr. Radha**, **Dr. Laxmi**, **Dr. Paresh**, **Dr. Kritarth**, **Milton**, **Dhruv**, **Anjali**, **Fatema**, **Dr. Tina**, **Dr. Shoaib**, **Dr. Mala**, **Ashlesha**, **Jayvadan**, **Nishant**, **Riddhi**, **Dr. Maharshi**, **Dr. Varsha**, **Sejal**, **Dr. Divya**, **Arpi**, **Shivani**, **Dr. Suresh**, **Parini** and all the junior scholars of the department.

I am proud to share the desk with the dissertation students **Jasmita Patel**, **Dievya Gohil**, **Abhishek Pethe**, **Steffi Verghese**, and **Avani Mehta** who shared my research bench and worked side-by-side. I am grateful to you all for the mutual learnings that we had in the projects. I would also like to acknowledge other postgraduate alumni of our lab, **Harsh**, **Abhilash**, **Shreya**, **Afroze**, **Vyakhya**,

Aashka, Kashish, Shubham, Ruchika, Deep, Hemal, Nita, Niyati, Amrita, Prachi, Rushabh, and Hitendra.

I will be failing in my duties if I do not acknowledge the support, co-operation and suggestions of all the administrative staff members of Biochemistry department and Faculty of Science, **Pethe sir, Axita Ma'am, Manishbhai, Shaileshbhai, Vijaybhai, Anilbhai, Balvantbhai, Sandeepbhai, Rameshbhai, Kaushikbhai, and Mr. Dabhi** for their help and support. I am also grateful to The MS University Administrative staff, **Milindada, Lt. Kenithbhai, Chiragbhai, Mayurbhai, Mrs. Chitra, Mrs. Hetal, Mrs. Neeta**, and all the members who are not listed here for processing all documentation and quick responses. I am also grateful to the staff of Vikram Sarabhai Institute of Cell and Molecular Biology, **Pooja, Manojbhai, Mitesh** for helping in the use of central instrumentation facility and administrative assistance.

I also gratefully acknowledge the **University Grants Commission (UGC)** and **Department of Biotechnology (DBT)**, Government of India, New Delhi for financial assistance during my PhD and to support the conference presentations and workshops.

The hard work, devotion, and dedication, which I was lessoned by **my parents** with their unconditional love and support during the highs and lows of my life. This work wouldn't have been accomplished without their support, and I truly dedicate this thesis to them. With gratitude and reverence, I acknowledge and admire the love, confidence and moral support bestowed on me by my family, **Hetal-Nipul** and **Alka-Amit**, and their li'l masters, **Shamak, Ramya, and Purva**. Love you guys for bringing so much joy to life. I would also like to thank my loved-cousins **Deep-Sneha, Mihir-Himvarsha, Pavan-Shannon, and Shailaja** who filled my life fun and joy.

Finally, I would like to acknowledge my wife **Priti** for her constant support, encouragement, and unconditional love during my coarse journey. The foundation of a decade's relation gave me the strength to tackle the challenges head-on. I appreciate her patients to withstand my marathonian and endless work. Lots of love and affection to our sweetheart **Urvashi** for all the fun chats and hangouts.

END IS NOT THE END, IT'S "EFFORT NEVER DIES" - APJ ABDUL KALAM
