

THESIS OUTLINE

Elucidating the role of Androgen Receptor signaling and stemness in Benign Prostate Hyperplasia.

Thesis Abstract

Chapter-1: Introduction and Review of literature

Chapter-2: Aims and objectives

Chapter-3: Materials and methods

Chapter-4: Association of Androgen Receptor and stemness in BPH and PCa patients.

Chapter-5: To elucidate the role of Androgen Receptor in the maintenance of stemness in benign prostate hyperplasia derived epithelial stem cells.

Chapter-6: To explore the role of Androgen Receptor-mediated epithelial-stromal crosstalk in the etiopathology of Benign Prostate Hyperplasia.

Chapter-7: Summary and Conclusions
