

## **ACKNOWLEDGEMENT**

In the Name of Allah, the Most Gracious and the Most Merciful.

*Pursuing a Ph.D. degree is like a journey, a journey that requires a plan, a journey that requires patience, a journey of thousand miles that begins with a single step. It has so many bumps, twists, and obstacles. But one day, eventually, it will lead you to a beautiful destination. But as in any journey, with whom you travel is equally important as the destination. And I know that without the support, encouragement, and help of my guide, family, and friends, I would never have reached this destination. Though it will not be enough to articulate my thankfulness in words to all those people who have helped me. However, I would like to convey my heartfelt thanks to all of them.*

*First and foremost, I thank the Almighty Allah for his mercy and numerous blessings he bestow upon me. He is the one who gave me the strength, knowledge, ability and opportunity to undertake this research study and to persevere and complete it satisfactorily. Without his blessings, this achievement would not have been possible.*

*With a great pleasure I would like to express my heartfelt and sincerest gratitude to my mentor, my guide **Prof. Rasheedunnisa Begum**, for her support, motivation and guiding me at each and every step of this study. This work would not be possible without her inspiring ideas, constructive criticism, and constant supervision. I thank her for bringing out the best of me and forcing me to push myself intellectually to my limits. Her guidance and motivation were a source of encouragement in my research and my life too. She not only taught me how an ideal researcher should be, but also taught me how to be a good human being and always help others selflessly. Her unflinching courage and conviction will always inspire me. Her dedication towards her duty and passion for perfection always reminds me of an ayah from the holy Qur'an which means 'Verily, Allah commands you to act with justice in all the matters, to confer benefits upon each other and to do good to others'. I am grateful to the Almighty for providing me an opportunity to nurture my self under the guidance of such a good mentor. I take this opportunity to thank her for everything. Thank you very much Ma'am.*
