

A C K N O W L E D G E M E N T

The author takes pleasure in expressing his gratitude to Dr. A. H. de Quadros, D.P.H. (Lond.), F.R.C.S. (Eng.), Principal, Medical College, Baroda, for his encouragement and the facilities given to me during the work, to Dr. J. D. Pathak, B.Sc. M.D. F.C.P.S. (Don.), Professor and the Head of the Department of Physiology, Medical College, Baroda, and the Officer-in-Charge under whom this I.C.M.R. inquiry on the problem was held in collaboration, and to the Indian Council of Medical Research for their financial aid during the work.

The author is grateful to the members of the Staff of the Medical College, Baroda, for their co-operation and to all the students who volunteered themselves most willingly as subjects during the study.
