

APPENDIX (IX)
MANUAL FOR STUDENTS

Dear students,

The following Package is developed and designed to teach you Vocabulary, Grammar, and Comprehension of the four lessons selected from your English textbook. These lessons are,

1. Lesson 10: Mr. Nair's Circus
2. Lesson 11: A Railway Station
3. Lesson 12: Dr. Jadeja's Hospital, and
4. Lesson 13: In the Kitchen.

Each lesson of these was divided into three parts i.e. Vocabulary part, Grammar part and Comprehension part. The vocabulary of lesson ten was developed under the file name CIRCUS, the vocabulary of lesson eleven was developed under the file name TRAIN, the vocabulary of lesson twelve was developed under the file name HOSPITAL, and the vocabulary of lesson thirteen was developed under the file name KITCHEN. The Grammar was also divided into four parts i.e. Noun, Pronoun, Adjective, and Preposition. Each part of speech was developed under a separate file as under,

The Noun was developed under the file name NOUN1, the Pronoun was developed under the file name PRON, the Adjective was developed under the file name ADJ, and the Preposition was developed under the file name PREPO. The Comprehension part of the Package was developed also under a separate file names as under,

The comprehension for lesson 10 was developed under the file name COMP, the comprehension for lesson 11 was developed under the file name RAIL, the comprehension for lesson 12 was developed under the file name HOSP, and the comprehension of lesson 13 was developed under the file name KIT. Each file was followed by a test, test1, test2, test3, and test4 are for vocabulary, test5, test6, test7, and test8 are for grammar, and test9, test10, test11, and test12 are for comprehension.

To view any of the above files, first of all you have to switch on the computer, then you have to insert the floppy either in drive A or drive B. If you inserted the floppy in drive A the following prompt will be shown to you on the screen

A>:

and if you inserted the floppy in drive B then the following prompt will appear on the screen

B>:

Now to go to BASICA directory all you have to do is to type BASICA in front of the prompt seen on the screen as shown here,

A>:BASICA/

After typing Basica as shown above you have to press Enter to open the directory. After you have pressed Enter the directory now open with "OK" shown on the top of the screen, this means that the directory is open and waiting for your command. To start the Package you are going to follow the following steps.

To Load the programme press F3 or type Load " CAI and press Enter, as shown here
