

## ACKNOWLEDGEMENTS

I would like to express my deep sense of gratitude and reverence to my guide **Prof. Surekha Devi** for her keen interest, invaluable suggestions and constant encouragement throughout the tenure of this work. I am deeply indebted to her for giving me an opportunity to work under her guidance and helping me in every possible way in bringing out this work from concept of reality.

I wish to express my sincere and heartfelt gratitude to Dr. S. Y. Pandey, The Director of Chemistry Department, Jai research Foundation, Valvada, for his scientific guidance and commendable support as a supervisor and philosopher throughout the course of present investigation. I am immensely indebted to him for his kind cooperation, understanding, inspiration and support due to which, I have been able to shape the destiny of this work.

I am very thankful to the management of the Jai Research Foundation for providing me the necessary facilities.

My sincere thanks go to my colleagues and friends for their kind help on various occasions and whenever I approached them during the course of my work.

I owe special thanks to my parents 'Shri P. D. Garg and Smt. Shyama Garg' and In-laws 'Shri K. K. Agarwal and Smt. Uma Agarwal' for giving me constant moral support and courage to achieve my goal.

Words could not express the debt of gratitude I owe to my husband 'Mr. Avaneesh Kumar' and my son 'Master Abhishek Agarwal' for their sacrifice, devotion and cooperation until the submission of thesis.

  
(Mrs. Manishi Agarwal)
