

LIST OF PUBLICATIONS

LIST OF PUBLICATIONS

1. Spectrophotometric determination of famotidine from pharmaceutical preparations.

K. Shivram, B.V. Kamath and V.P. Arya.

The Eastern Pharmacist 34 (399) 137-138 (1991).
2. Spectrophotometric determination of diclofenac sodium from pharmaceutical preparations.

K. Shivram, B.V. Kamath, V. P. Arya.

The Eastern Pharmacist, 34 (402) 119-120 (1991).
3. Extractive colorimetric method for the determination of diclofenac sodium from pharmaceutical preparations.

B. V. Kamath, K. Shivram and V. P. Arya.

The Eastern Pharmacist, 34 (407) 117-118 (1991).
4. New titrimetric methods for the estimation of diltiazem in dosage forms.

Y.K. Agrawal, K. Shivram, B.E. Rao and G.N. Singh.

Indian J. Pharm Sci. 23 214-216 (1991).
5. Extractive spectrophotometric method for the determination of diltiazem in its dosage forms.

B.V. Kamath and K. Shivram.

Indian drugs 29 50-52 (1991).

6. Spectrophotometric determination of diclofenac sodium in tablets.
Y.K. Agrawal and K. Shivram.
J. Pharm. Biomed. Anal. 9(2) 97-100 (1991).
7. Extractive spectrophotometric method for the determination of diclofenac sodium in tablets.
B.V. Kamath and K. Shivram
Indian J. Pharm. Sci. 54 (2) 81-83 (1992).
8. Spectrophotometric methods for the determination of diltiazem in pharmaceutical preparation.
Y.K. Agrawal, K. Shivram and B.E. Rao
Indian J. Pharm. Sci. 54 (6) 218-221 (1992).
9. Extractive spectrophotometric method for the determination of diltiazem hydrochloride in its dosage forms.
B.V. Kamath and K. Shivram.
The Eastern Pharmacist, 35 (410) 121-122 (1992).
10. Spectrophotometric determination of famotidine by charge transfer complexation.
B.V. Kamath, K. Shivram and S. Vangani.
Anal. Lett. 25 (12) 2239-2247 (1992).

11. Spectrophotometric determination of famotidine in pharmaceutical preparations.

Y.K. Agrawal, K. Shivram, G.N. Singh and B.E. Rao

J. Pharm. Biomed. Anal 10 (7) 521-523 (1992).
12. Stability indicating HPLC method for the assay of diltiazem hydrochloride in tablets.

K. Shivram, A.C. Shah, B.L. Newalkar and B.V.Kamath

J. Liq. Chromatog. 15 (3) 2417-2422 (1992).
13. Liquid chromatography analysis and degradation kinetics of famotidine.

B.V. Kamath, K. Shivram, B.L. Newalkar and A.C. Shah.

J. Liq. Chromatogr. 16 (5) 1007-1014 (1993).
14. Use of charge transfer complexation in the spectrophotometric determination of diclofenac sodium.

B.V. Kamath, K. Shivram, G.P. Oza and S. Vangani.

Anal. Lett. 26 (4) 665-674 (1993).
15. Spectrophotometric determination of diclofenac sodium via oxidation reactions.

B.V. Kamath and K. Shivram.

Anal. Lett. 26 (5) 903-911 (1993).

16. Flow injection analysis of famotidine with spectrophotometric detection.
B.V. Kamath, K. Shivram and S. Vangani.
Anal. Lett. 26 (10), 2183-2191 (1993).
17. Selective spectrophotometric determination of diltiazem hydrochloride in tablets.
B.V. Kamath, K. Shivram and A.C. Shah
J. Pharm. Biomed. Anal. 11 (4) 407-409 (1993).
18. Extractive fluorimetric determination of diltiazem in dosage forms.
B.V. Kamath, K. Shivram and A.C. Shah
J.M.S. University of Baroda, No. 3 151-153 (1992-93).
19. Spectrophotometric determination of ketorolac tromethamine by charge transfer and ion-pair complexation.
B.V. Kamath, K. Shivram and S. Vangani.
Anal. Lett. 27(1) 103-112 (1994).
20. Determination of diclofenac sodium, famotidine and ketorolac tromethamine by flow injection analysis using dichloronitrophenol.
B.V. Kamath, K. Shivram and A.C. Shah
J. Pharm. Biomed. Anal. 12(3) 343-346(1994)
