

## List of Tables

Chapters	Title	Page No.
<b>Chapter 1    General Introduction</b>		
1.1	Comparison of properties between biodiesel and petro-diesel	12
1.2	Comparison between the properties of diesel and <i>Jatropha</i> oil	23
<b>Chapter 2    Materials and Methods</b>		
<b>Chapter 3    Studies on biochemical changes in <i>Jatropha curcas</i> L. seeds on storage</b>		
3.1	Comparative analysis of MDA in natural aging with accelerated aging and saturated salt accelerated aging	66
3.2	Comparative analysis of levels of H <sub>2</sub> O <sub>2</sub> in natural aging with accelerated aging and saturated salt accelerated aging	73
<b>Chapter 4    Studies on effect of storage of <i>Jatropha curcas</i> L. seeds on germination</b>		
4.1	Comparative analysis of percentage of germination in natural aging with accelerated aging and saturated salt accelerated aging	83
<b>Chapter 5    Alterations in antioxidant profile in <i>Jatropha curcas</i> L. seeds upon aging</b>		
5.1	DPPH free radical scavenging activity of <i>Jatropha curcas</i> L. seeds subjected to natural, Accelerated and saturated salt accelerated aging and Ascorbic acid	99
5.2	Estimation of the antioxidant enzymes activity. [Super Oxide Dismutase, Catalase, Peroxidase]	101
5.3	Comparative analysis of gamma tocopherol between natural aging and accelerated aging & saturated salt accelerated aging	103
<b>Chapter 6    Influence of aging of <i>Jatropha curcas</i> L. seeds on the oxidative stability of its oil</b>		
6.1	Comparative analysis of oil content extracted from seeds of natural aging, accelerated aging and saturated salt accelerated aging	117
6.2	Acid value of <i>Jatropha curcas</i> L. oil extracted from seeds of natural	118

	aging and accelerated aging and saturated salt accelerated aging	
6.3	Comparative analysis of acid value estimated in <i>J. curcas</i> oil extracted from seeds of natural aging, accelerated aging and saturated salt accelerated aging	120
6.4	Comparative analysis of saponification value determined in <i>J. curcas</i> oil extracted from seeds of natural aging, accelerated aging and saturated salt accelerated aging	123
6.5	Comparative analysis of peroxide value determined in <i>J. curcas</i> oil extracted from seeds of natural aging, accelerated aging and saturated salt accelerated aging	126
6.6	Comparative analysis of iodine value determined in <i>J. curcas</i> oil extracted from seeds of natural aging, accelerated aging and saturated salt accelerated aging	128
6.7	Oleic acid content found in <i>Jatropha curcas</i> L. seed oil of natural aging, accelerated aging and saturated salt accelerated aging	129
6.8	Palmitic acid content found in <i>Jatropha curcas</i> L. seed oil of natural aging, accelerated aging and saturated salt accelerated aging	130
6.9	Stearic acid content found in <i>Jatropha curcas</i> L. seed oil of natural aging, accelerated aging and saturated salt accelerated aging	130
6.10	Palmitoleic acid content found in <i>Jatropha curcas</i> L. seed oil of natural aging, accelerated aging and saturated salt accelerated aging	130
