

I am at a loss of words to convey my humble heartfelt thanks and obligations in signifying Prof. P.K. Bhattacharya (Doctor of Philosophy in Inorganic Chemistry, Head of the Chemistry Dept., Faculty of Science, M.S. University of Baroda), who delightfully guided me through my research work and whose predigious invaluable adroit counsel is fare beyond my means and capacity of thanking him genuinely. I can but express my thoughtfulness and the esteem I blossom for him in a little way that he helped me recoup whenever I faced the wall and recrudensce through depression of failures by giving me a cure for every crux .
