

## **ACKNOWLEDGEMENTS**

I am indebted to Dr. Geeta Hathi who guided these scientific studies. Without her determination and foresight, these preliminary epidemiological surveys of the problems of iodine deficiency disorders in Gujarat, Himachal Pradesh and Tamil Nadu would not have been possible. I am thankful to Dr Geeta Hathi for her patience and mentorship.

Thanks to Dr. Rajesh Brahmhatt for performing thyroid ultrasonography in all these epidemiological surveys.

I am thankful to the Secretary, Health and Family Welfare Department, Government of Gujarat, Director of Medical Education & Research and Dean Medical College, Baroda for all the help for sanctioning my study leave.

I am thankful to Professor Creswell J Eastman for allowing me to work in endocrinology and urinary iodine determination laboratories in ICPMR division of Western Sydney Area Health Services. He also provided funding for TSH Elisa Kits and other chemicals used in various investigations.

I am thankful to Professor Steven Boyages, Chief Executive Officer, Western Sydney Area Health Services, for allowing me to work in Endocrinology department at Westmead Hospital.

I am highly grateful to Dr. Kamal Pathak for his timely inspiration and advice.
