

LIST OF FIGURES

<u>Figure</u>	<u>Page</u>
1.1 Location map	3
1.2 Physiographic map of Wagad	9
1.3 Map showing locations of measured sections and stratigraphic cross sections	12
1.4 Geological map of Wagad hills Scale: 1" = 1 mile	At the back of the thesis
3.1 Geological map of Kutch	23
4.1 Stratigraphic columns, Northern Range Sub-province	At the back of the thesis
4.2 Stratigraphic columns, Kanthkot Range Sub-province	
4.3 Stratigraphic columns, Southern Range Sub-province	
5.1 Isopach map of the Washtawa Formation	95
5.2 Sand-shale ratio map of the Washtawa Formation	98
5.3 Isopach map of the Kanthkot Formation	100
5.4 Sand-shale ratio map of the Lower Kanthkot Formation	102
5.5 Sand-shale ratio map of the Upper Kanthkot Formation	104
5.6 Sandstone isolith map of the Lower Kanthkot Formation	106
5.7 Sandstone isolith map of the Upper Kanthkot Formation	108
5.8 Sandstone percentage map of the Lower Kanthkot Formation	111

5.9	Sandstone percentage map of the Upper Kanthket Formation	113
5.10	Shale isolith map of the Kanthket Formation	115
5.11	Isepach map of the Gamdau Formation	118
5.12	Stratigraphic cross section of the Wagad Group along Northern Range	121
5.13	Stratigraphic cross section of the Wagad Group along Southern Range	124
5.14	Transverse stratigraphic cross section of the Wagad Group (North-South)	128
5.15	Fence diagram of the Wagad Group	130
6.1	Histograms of standard deviations of each set of readings for cross bedding	155
6.2	Histograms of standard deviations of each set of readings for ripple marks	156
6.3	Cross bedding directions through vertical sections	160
6.4	Histograms of cross bedding thickness	163
6.5	Paleocurrent map for the Washtawa Formation	164
6.6	Paleocurrent map for the Lower Kanthket Formation	167
6.7	Paleocurrent map for the Upper Kanthket Formation	170
6.8	Paleocurrent map for the Gamdau Formation	173
7.1	Regional variation of grain size for the Washtawa Formation	182

7.2	Regional variation of grain size for the Lower Kanthkot Formation	184
7.3	Regional variation of grain size for the Upper Kanthkot Formation	186
7.4	Vertical variation of grain size for the Washtawa Formation	189
7.5	Vertical variation of grain size for the Lower Kanthkot Formation	192
7.6	Vertical variation of grain size for the Lower Kanthkot Formation	193
7.7	Vertical variation of grain size for the Upper Kanthkot and Gamdau Formations	196
7.8	Grain size distribution curves of samples of the Washtawa Formation	201
7.9	Grain size distribution curves of samples of the Lower Kanthkot Formation	203
7.10	Grain size distribution curves of samples of the Upper Kanthkot Formation	206
7.11	Grain size distribution curves of samples of the Gamdau Formation	207
7.12	Scatter plott of mean size versus standard deviation	209
7.13	Sorting pattern	211
9.1	Tectonic map of Wagad hills	223
9.2	Rose diagrams showing dominant fault trends of Wagad hills	242
10.1	Sedimentary framework, Washtawa Formation	255
10.2	Sedimentary framework, Lower Kanthkot Formation	267

10.3	Sedimentary framework, Upper Kanthket Formation	281
10.4	Generalised environmental section during Kanthket deposition	274
10.5	Sedimentary model of Wagad basin	260
