

LIST OF TABLES

Table 1	Classification of dyes based on their use or application.	3
Table 2	Classification of dyes based on their chemical structure.	6
Table 3	Various growth media used for optimization of fungal cultures.	35
Table 4	Substrates used for production of ligninolytic activity by SSF.	37
Table 5	Concentrations of ammonium sulphate used for the precipitation of manganese peroxidase, manganese independent peroxidase, laccase and lignin peroxidase during partial purification.	40
Table 6	Composition of buffers and gels used for SDS-PAGE electrophoresis	42
Table 7	Compositions of CBB dye solution.	42
Table 8	Textile dyes used in the present study.	43
Table 9:	Optimization of particle size of wheat straw for ligninolytic enzyme production by <i>Trametes hirsuta</i> .	52
