

LIST OF TABLES

CHAPTER I	PAGE NO.
Table 1: Composition of the atmosphere near the earth.....	6
Table 2: Global estimates of land area and carbon stocks in living plants and soils for various ecosystems.....	13
Table 3: Carbon stock (Pg C) in world's major forests biomes.....	15
Table 4: Soil organic carbon pool of world soils.....	17
Table 5: Estimates of SOC stocks of different forest types, India.....	19
Table 6: Soil organic carbon in different soil taxonomic orders from India...	20
APPENDIX	
Table 1: Mean soil pH values ($n=3$) of three types of land cover at different depths (\pm SE).....	123
Table 2: SOC content (g kg^{-1}) from three different vegetal covers at different depths (Mean \pm SE).....	124
Table 3: SOC content (g kg^{-1}) in Pools 1 ($>250\text{-}2000\mu\text{m}$) and Pool 2 ($< 250\mu\text{m}$) of three different types of land covers soil with different depths (Mean \pm SE).....	125
Table 4: Peak areas of the chemical shift regions, ^1H NMR spectra (expressed as % of total signal intensity) of soil extracts of teak, bamboo and teak pools at different depths.....	126
Table 5: Radiocarbon age, pMC and calendar age (years BP) of SOC at three different depths under teak land cover (Mean \pm SE).....	126
Table 6: Carbon loss due to HF treatment (% of total SOC) at three different depths of soil under three types of land cover (Mean \pm SE).....	127
Table 7: HF-soluble carbon ((% of total SOC) in SOC Pools 1 and Pool 2 at three different depths of three types of land cover (Mean \pm SE).....	127
Table 8: MBC (g kg^{-1}) at three different depths of soils coming from litter decomposition study of three types of land cover (Mean \pm SE).....	128
