### MECHANISM OF REARRANGEMENT OF LONGIFOLENE TO ISOLONGIFOLENE

CHAPTER I	ELUCIDATION OF TERPENE REARRANGEMENTS USING DEUTERIUM LABELS	1-49
	Abstract ..	1
	Introduction ..	2
	Monoterpenes ..	4
	Sesquiterpenes ..	26
	Diterpenes ..	34
	Triterpenes ..	38
	References ..	41
CHAPTER II	MECHANISM OF REARRANGEMENT OF LONGIFOLENE TO ISOLONGIFOLENE	50-131
	Abstract ..	50
	Introduction ..	51
	Isomerization of longifolene with BF <sub>3</sub> ·Et <sub>2</sub> O-AcOD ..	55
	Using site-specifically labelled longifolene-4,4,5,5-d <sub>4</sub> ..	72
	Discussions ..	83
	Experimental ..	88
	References ..	113
	Spectra ..	116

PART B

SOME TRANSFORMATIONS IN  
ISOLONGIFOLENE SERIES

	page
CHAPTER I STERIC DIVERSION IN ELECTROPHILIC ADDITIONS	132-187
Abstract ..	132
Introduction ..	133
Electrophilic additions to isolongifolene ..	135
Discussions ..	145
Experimental ..	149
References ..	176
Spectra ..	179
CHAPTER II STRUCTURE OF AN ACETATE FROM SOLVOLYSIS OF 8-HALONEDISOLONGIFOLENE	188-232
Abstract ..	188
Introduction ..	189
Alcohol A ..	190
Alcohol B ..	190
Chemical transformations ..	204
Experimental ..	209
References ..	219
Spectra ..	221
CHAPTER III A NOVEL FRAGMENTATION REACTION AND ITS APPLICATIONS ..	233-260
Abstract ..	233

	Page
Introduction ..	234
Cheavags of homoallylic alcohols ..	241
Synthesis of natural products ..	246
Experimental ..	254
References ..	271
Spectra ..	275
SUMMARY ..	281
ACKNOWLEDGEMENTS ..	284
