Vision

The progress of a nation requires that its people should be educated. Knowledge is a necessity of man. It instils in him a desire to question and to investigate, which leads him on the path of progress. Education, in the broadest sense, must be spread everywhere. Mission

सर्वद्रव्येषु विद्यैव द्रव्यमाहुरनुत्तमम् ।
अहार्यत्वानर्ध्यत्वादक्षयत्वाच्च सर्वदा ॥

(हितोपदेश 1/4)

They say- Knowledge is the supreme-most among all substances in the world- because it is unstealable, invaluable, and always imperishable.

“It is the youth, which has had the benefit of education, to show the world what true democracy is. There will be a real democracy where every man, woman and child in a state, is filled with an irrepressible desire to do everything possible to make that community better, stronger and free. And this ideal cannot be achieved without an educated people – educated not in letters but educated in those deep and moral truths which are implied in the service of the community.”
