

# List of Tables

3.1	Parameters, its values and description . . . . .	24
3.2	Incidence of Breast cancer stage IV patients [5] in Saudi Arabia (2004–2016) . . . . .	78
3.3	Best estimated parameters for Mathematical models . . . . .	78
3.4	Comparison of the incidence of stage IV Breast cancer patients with data obtained under integer (3.37) and fractional order (3.38 - 3.40) systems and the respective norm values . . . . .	78
7.1	Description of variables/constants and its notations. . . . .	168
8.1	Eigenvalue with corresponding parameter taken from Table 8.2 . . . . .	200
8.2	Tumor volume (p) and carrying capacity (k) for different $\alpha$ of Hahnfeldt and Modified Hahnfeldt tumor growth model . . . . .	206
8.3	Root Mean Squared Error (RMSE) for different cancers . . . . .	206
