LIST OF FIGURES

Fig no.	Title	Page no.
2.1	Disease burden by NCD in world	8
2.2	Disease burden by NCD in India	8
2.3	State wise prevalence of constipation (Ghoshal, 2017)	11
2.4	ROME Criteria over the years	14
2.5	Bristol Stool Chart/Scale/Form	14
2.6	Disease burden by risk factor, World 2019	17
2.7	Disease burden by risk factor, India 2019	17
2.8	Sitting postures on the Western toilet	20
2.9	Management of Constipation	24
2.10	Prominent Bacterial population within the human gut	33
2.11	Microbial diversity (good and bad) in human gut	33
2.12	Schematic representation of different factors modulating the gut-brain axis (Mukhtar et al, 2019)	34
2.13	Structure of Galactooligosaccharide (GOS)	37
4.1A	ROME IV criteria	48
4.1B	Bristol stool chart	48
4.1C	Scoring and Categorization for constipation profile	49
4.2	Parameters for assessing Chrono nutrition profile (Allison 2018)	49
4.3	Process flow chart and Preparation of standard gummies	53
4.4	Categories of Depression as per BDI II (1996)	62
4.5	Primers used in the study with specific temperatures	67
4.6	Experimental plan for Phase III	69
5.1.1	Obesity profile of the Respondents as per BMI	75
5.1.2	Menstrual profile of the Respondents	75
5.1.3	Constipation categorization of the respondents	84
5.1.4	Age group Distribution of Constipated respondents	84

5.1.5	**Gender Distribution of constipated respondents**	**85**
5.1.6	**BMI categorization of constipated respondents**	**85**
5.1.7	**Eating practices of subjects**	**89**
5.2.1	**Sensory Scores at different levels of GOS substitution**	**98**
5.2.2	**Chromatogram depicting GOS standard peak in one gummy**	**100**
5.3.1	**Consort for the Double Blind Randomized clinical trial**	**105**
5.3.2	**Gut Microbiota profile in control and experimental group**	**111**
5.3.3	**F/B ratio in experimental group**	**111**
5.3.4	**Depression profile categorization in control & experimental grou**	**113**
5.3.5	**PAC-QOL categorization in control & experimental groups**	**115**
