

ACKNOWLEDGEMENT

First and foremost heart felt thanks, millions of thanks and sincere gratitude to myGuide Prof.(Dr.)Madhu Sharan, Professor, Former Head, Department of Clothing and Textiles, Faculty of Family andCommunity Sciences) for the continuous support from very beginning with patience, guidance, encouragement, motivation, good advice and support. Your smile and appreciation for me has given me strength to work throughout the doctoral research. In the entire journey I just love the way you have come with me in workshops and exhibitions. I just love the trust and positive expectations you have from me every time that has made by career to flying colors.

My sincere gratitude, respect and special thanks to Prof. (Dr.) Uma Iyer, Dean , Faculty of Family and Community Sciences for all time motivation and encouragement to take this work forward for startups.

A special to thanks to Prof.(Dr.)Anjali Karolia, Former Dean Faculty of Family and-Community Sciences) The Maharaja Sayajirao University of Baroda for encouragement and motivation to take the researchforward.

I heartly thanks to all my teachers Dr. Reena Bhatia, Dr. Hemlata Raval, Dr. Falguni Patel Dr.Rajni Yadav, Dr.Sukruti Patel, Mrs. Vandana Chauhan (Retired Associate Professor) , Ms. Lakshmi , Ms, Kriti Sharma from Department of Clothing the Textiles, FacultyofFamilyandCommunity Sciences) The Maharaja Sayajirao University of Baroda.

A very great path i have received from Mrs. Mamta Pandey to provide me the details ofDr. R. Rathinamoorthy (Associate Professor in PSG college of Coimbatore). It has been a great help in my work.

My sincere gratitude to Mr. Deep Agrawal, Mr. Himanshu Bodawala and entire team of Southern Gujarat Chamber of Ministry and Commerce (SGCCL) for inviting me and sponsoring the air tickets, stay and stall for presenting the work in Weave knit exhibition –2022 A complete fashion show held in Sarsana, Surat.

Thanks to Vice chancellor of Gujarat Technology University, Chandkeda , Ahmedabad for inviting me and giving me a opportunity to present the work in Agripreneurs Conclave -2022 which was conducted by Atal Incubation Center (AIC) in collaboration with Ahmedabad Chamber of Ministry and Commerce.

Thanks to entire Medical Textile Team of SITRA (South Indian Textile Research Institute) for helping me in developing hygiene products and also conducting the test for it. Thanks to Mr. Gopal Krishnan sir from SITRA for guiding me in developing and testing of hygiene products. Thanks to the members of Incubation center of SITRA for helping me in developing hygiene products. Thanks to Dr. Santhini Elango, Senior Research Investigator and Dr. Radhai Rajan, Senior Scientific officer from SITRA for helping me in giving knowledge about the microorganisms specifically for hygiene products and in analysis of test reports. Thanks to D. Veerasubramanian Doraisamy, Scientific Officer, SITRA for helping me in absorbency test of fibers and sanitary napkin.

I am thankful to the technicians of Knitting lab of SITRA (South Indian Textile Research Institute), Coimbatore for helping in developing initial samples of Knitting .

My sincere gratitude and respect for Dr. Rathinamoorthy (Associate Professor) Department of Fashion Technology, PSG College of Technology for helping me in very little doubt even my mail. Blessed to get guidance from him. Thanks for helping me in developing initial knitted samples of Lotus in knitting lab of PSG college of Technology.

Thanks to the Microbiology Department of BITRA (Bombay Textile Research Institute), Mumbai for conducting the antimicrobial test for the Lotus fibers.

I am extremely thankful to the Director and Mr. Nishant Kamley from ICAR – Central Institute for Research on Cotton Technology (CIRCOT), Mumbai, Maharashtra for helping in KAWABATA test of selected woven fabrics for assessing the end use.

I deeply acknowledge to Bharat Ratna Prof. CNR Rao Research Centre, Avinashillingam Institute of Home Science and Higher Education, Coimbatore for conducting the test of XRD and whiteness index of Lotus Fiber.

I am also very glad to express my deepest gratitude to Mr. Pachan Premji, Artisan Designer weaver from Three Threads, Handicrafts, Bhujodi and his two elder brothers for helping in developing Lotus stoles as part of Training project and motivating me to work on this fiber forward.

Thanks to Mr. Pawan Gupta, Director , Mr. Mayashish Pal, Assistant Director, Ms. Ayesha Kazi, Weaver Superintendent and all the junior and senior weavers of Weaver Service Center Ahmedabad, Gujarat for helping me in developing woven fabrics samples from ply yarns. For weaving special thanks to Magan Solanki Sir for helping me in peg warping, loom setting and weaving the samples.

I am thankful to Artisan designer weaver Mr. Vithal Bhai Vaghela, Aadesh Patola House from Surendranagar, Gujarat for helping in weaving the finer Lotus yarn with Mulberry Silk. He is expertise weaver in Patola fabrics. The weaver was very happy to experiment this novel fiber in weaving .

Thanks to Mr. Kawin Patel from Udyog Bharti trust , Gondal, Rajkot district, Gujarat for helping me in developing Khadi fabrics.

Many thanks to Mr. Praveen Kumar, Technician from Textile Production Lab of Avinashillingam Institute of Home Science and Higher Education, Coimbatore for helping in developing powerloom fabrics.

I deeply acknowledge to Mr. Vipul Maniya, Chairman of Angel Knitting Industry at Ved Road, Surat, Gujarat for helping me in developing circular knit sample and socks from Lotus yarn.

I am extremely thankful to Mr. Anil Yadav & Mr. Ganesh Jogar from Department of Fiber engineering and Technology, Indian Institute of Technology for helping me in solving any doubts related to testing and test method.

The success of the research lies in its commercialization and going to the community. My sincere gratitude and thanks to Mr. Piyush Khare (Founder of Happy Faces Vadodara and Interactive Web station) for very prompt response for starting this project of training group of women for fiber extraction and spinning. Thanks to the entire team of Happy Faces Vadodara for arranging the funds and space for the project.

I am Thankful to Dr. Awa Shukla (I/C Director) Dr. Babasaheb Ambedkar Open University and team of Gargi Research Scholarship for sanctioning project “Women empowerment through spinning of Lotus petiole waste textile hidden in water”.

I am thankful to Mr. Nishint Sheth from Century Rayon, under the GRASIM Industries Limited, Mumbai for conducting the testing of Rotor spun Lotus yarns.

Making a machine was a most challenging task in the entire journey. Thanks to the engineers : Er. Dhaval Raval (Mechanical Engineer) and Er. Shreyash Patel (Robotic Engineer) from Vadodara, Gujarat for giving their full efforts for making this challenging task successful.

I am thankful to Mr. Hemang Patel, Technical assistant from Department of textile technology for helping in testing of yarns and fabrics. Mr. Jenish Patel, Technical Assistant from Department of Textile chemistry, for conducting the test for Lotus dyed yarns. Faculty of Technology and Engineering, The Maharaja Sayajirao University of Baroda, Vadodara, Gujarat.

My sincere gratitude to Dr. Bharat Patel (Associate Professor) Department of Textile Chemistry for explaining the methods for fastness testing and analyzing the values of fastness test for Lotus dyed yarns.

Thanks to Utsav (passed out Masters student of Textile chemistry) and Ms. Tanushree (Temporary Teaching Assistant) from Department of textile technology for helping me analyzing the k/s value of Lotus dyed samples

Sincere gratitude and respect for Mr. Bakul Shah who has whole heartedly helped me in spinning of Lotus yarns. With his knowledge and hands on experience of spinning has lead this research forward. For me he is a Guru for hand spinning.

Thanks to Bhumi Pujan Office at Fatehpura, Vadodara for providing me space for doing spinning in office. Thanks to Parul Maam and entire team of Bhumi Pujan office, Vadodara.

I am thankful to Mr. Isabbhai Rathod (Supplier of Lotus Flower) for providing the Lotus petioles in the entire Ph.D work which has played a major role in research. With his support only the research was successfully done.

Sincere gratitude, respect, thanks to Prof. Amsamani Sundarvel, from Avinashillingam Institute of Home Science and Higher Education, Coimbatore for helping me when I was there for a month in Coimbatore for internship and sample development work. I am very thankful to Madam for helping me in arranging stay, connecting me with the technicians of Textile production of Avinashillingam Institute of Home Science and Higher Education for developing the sample of Lotus Rotor spun yarns and nonwoven samples. Thanks a lot Madam for helping me regarding the permissions to refer books at central library of Avinashillingam Institute of Home Science and Higher Education, Coimbatore.

Thanks to the Technician Mr. Praveen Kumar from Textile production of Avinashillingam Institute of Home Science and Higher Education for helping me in developing rotor spun yarns and nonwoven fabric preparation. Thanks Praveen Sir for the detailed explanation regarding Rotor spinning while developing samples.

Thanks to Ms. Deep Mala Kumari (Head of Mankind pharmaceuticals industry), Delhi for helping me in the analysis of Antimicrobial test.

I deeply acknowledge to Dr. Sarjoo Patel, Assistant Professor, Department of Family Resource Management , Faculty of Family and Community Sciences) The Maharaja Sayajirao University of Baroda for helping me in taking this work for SSIP 2.0. Finally we get the acceptance letter for the project. Thankyou Madam!

I am extremely thankful to Mr. Nishant Trivedi, Technical Assistant, Institute of Fashion Technology for helping me dyeing process, procurement of dyes, initial nonwoven web preparation , helping in operating launderometer in laboratory. Thankyou Sir for helping me in all the technical process, inspiring and motivating me to take this work forward.

Special Thanks to Mr. Siddharth Rathod, Technical Assistant, Institute of Fashion Technology for helping me with the entire textile testing laboratory support any time in the entire doctoral journey. Thanks to Mrs. Heena for the assistance in Textile chemistry lab specially during dyeing experiments. Thanks to Mr. Sameer bhai for providing equipments from weaving lab.

I am thankful to Elaben, Kapila ben, Anitaben, Santosh Bhai, Harish Bhai. Special thanks to Sachin Bhai for all the help regarding receiving the couriers in the entire journey.

Thanks to all the hardworking ladies – Manjuben, Sunitaben, Bharti, Sheetal, Kankuben, Gauri ben, Narangiben and Nimuben for learning this skill of extraction and spinning with patience and co-operation. You all have fulfilled my dream of women empowerment through this Lotus fiber extraction. Being a women it was and it will be my major task in present and future to empower them with this Lotus fiber manufacturing process. I was very happy to hear from you that “We are very lucky to learn something different in life”.

Words of thanks will not be enough to my most special person of life, Mr. Shiv Sharma. He was with me in each and every task of machine development, petiole collection, visiting to villages for weaving, helping me in exhibition preparation. With his support I am able to complete this task. I will just dedicate that behind every successful women there is a dedicated and since man that I have got. Thanks to almighty for this lifetime gift.

Millions of thanks to my foundation – My Father- Mr. Jagadish Haldar (Manager – Operation and Marketing KCS Group of Companies) and My Mother - Dr. Basanti

Haldar for the continuous support for fulfilling this work. Special thanks to my young sister Bipasha Haldar for the all time motivation and support.

Special thanks to Mummy ji, Papa ji, Sunil Sharma, Kamal Sharma, Rohtash Sharma, Chanda Sharma, Pawan Sharma, Abhishek and Neeru for the all time motivation.

I am thankful to Khodarbai from Saranjam Karyalaya, Ahmedabad for solving all the technical problems in *Ambar Charkha* which I faced during hand spinning.

Thanks to my special Ph.D colleague–Thangjam Roshini who was very near and dear to me in entire journey of Ph.D. Thanks Roshini for all time support, motivation and inspiration. Thanks to Mitali Maam, Kanika , Amrita Maam, Nikita, Prachi, Swati Maam, Jenni Maam, Deepti Maam , Pooja Maam, Ami Maam, Meenakshi Maam and Manpreet Maam

Special thanks to Ms. Mamta Kumari, Assistant Professor at B.ED Department MDM College, Muzafarpur, Bihar.

“Spinning the threads of life – textile hidden in the water”

“Pond-petiole-fiber-yarn-fabric”

Thanks to Almighty for everything!

Om Saraswati namah!

Radhaswami, Radhaswami, Radhaswami!

SUMI HALDAR
