

DEDICATED
TO
MY LOVING FAMILY

ACKNOWLEDGEMENTS

I begin with profound gratitude to my supervisor, Prof. Sarita Gupta, whose unwavering support, guidance, and invaluable insights have been the cornerstone of this journey. Her patience and encouragement have not only shaped this thesis but also nurtured my growth as a researcher.

A special acknowledgment goes to Dr. Sharad Gupta, (Gupta Pathology Lab, Baroda), for his invaluable discussion on prostate cancer pathologies which helped to get clarity on the clinical aspects of prostate cancer.

I extend my heartfelt thanks to Dr. Nitin Damle and Dr. Indraneel Ghosh of Sun Pharma for their assistance in facilitating my Ph.D. registration while I was still employed at Sun Pharma.

My Ph.D. would not have taken its present form without the unwavering support and assistance of my lab mates, especially Kandarp, Dr. Gurpreet, Dr. Gaurav, Mital, Komal and Dr. Muskan Belani during challenging times.

I am deeply grateful to Dr. Rajesh Singh for his insightful discussions on my Ph.D. topic, which contributed to shaping my work.

I would like to extend my thanks to Prof. C. Ratna Prabha, Head of the Dept of Biochemistry and Prof Pushpa Robin Joint Director. Dr. Vikram Sarabhai Institute of Cell and Molecular Biology. for her guidance and help in navigating the complex maze of bureaucratic procedures associated with the Ph.D. paperwork.

Words are not enough to thank my friend, Dr. Hitesh Patel, whose constant moral support, and technical guidance, despite being miles away in the USA for his postdoc, were invaluable. His provision of essential resources was pivotal to the completion of my work.

I am thankful to the research students of biochemistry who have always guided me correctly and saved my time and energy.

Thank you, Sejal, Kanchan, Megha, Meenal, Sandeep, Raju, Karishma, Nisha, and Satakshi, for your invaluable support whenever I needed it

Sonal madam, Mukesh Bhai, and DADA (Milind Bhai- especially during my registration time) for their support of university protocol I extend my thanks to Pooja Madam at the Sara Bhai Centre for assisting me with the smooth procedure and utilization of the instruments

Dr. Rashmi from Sun Pharma provided guidance and support when needed, and my colleagues Miral, Sandhya, Hiten, Sameer, Chitan and Kailash were always willing to provide necessary lab materials.

My family has been my backbone during challenging times. My parents have played a pivotal role in this journey, granting me the freedom to choose my path and supporting my decision to leave a high-paying job to pursue my Ph.D. Despite my wavering determination, my mother never abandoned my dream; she persistently encouraged me to complete my Ph.D. My father, a true hero, permitted me to leave my job for the pursuit of higher goals without questioning my judgment. While many parents seek their children's stability, my parents embraced the idea of temporary unsettlement for greater fulfillment.

My siblings, Niraj and Avani, provided steadfast spiritual, mental, and financial support, making me feel secure despite the absence of a regular income.

My twin brother Archit has always been with me and cleared my doubt about my abilities. He has been my true best friend, a soul mate, and a true Guru Bandhu since my childhood. Thanks a lot, brother for being there always.

My loving wife Krupa, has been my rock, taking on social, emotional, and financial responsibilities without hesitation. She was instrumental in keeping me calm during the challenging time both at work and in my personal life. My daughter Nistha, has been understanding and supportive, allowing me the time and space to focus on my work. My stress could not stand in front of her cute gestures and unconditional love. Thanks, my sweetheart for blessing my life with your unconditional love.

I am grateful to my sister-in-law, Niketa Jani, whose scientific discussions and writing skills greatly aided in my thesis writing, despite the novelty of the topic for her. Thanks, Bhabhi for your positive remarks.

My nephews Puranjay, Shashwat, Daivat, and niece Aashvi brought joy and laughter, turning stressful moments into cherished memories. Your presence instantly elevated my mood when I needed it most.

Finally, I acknowledge the abundant grace and blessings of God and Gurus. He secretly and constantly helped me through all the people mentioned above and demonstrated reflection of his presence illuminating my path toward completing this work.
