

ASSESSMENT OF GROUND WATER VULNERABILITY IN THE ALLUVIAL REGION BETWEEN MAHI AND NARMADA RIVERS OF GUJARAT

Submitted by: Mukesh A. Modi

Guided by: Dr. N. J. Shrimali

TABLE OF CONTENT

AKNOWLEDGEMENT	V
EXECUTIVE SUMMARY	VII
ABBREVIATION	IX
TABLE OF CONTENT	XIV
LIST OF FIGURES	XIX
LIST OF TABLES	XXIV
CHAPTER 1 INTRODUCTION	1
1.1 General.....	1
1.2 Classification of Contamination Sources.....	2
1.3 Groundwater quality issues in Indian/Gujarat Context.....	4
1.4 Groundwater Quality and Contamination.....	9
1.5 Concept of Groundwater Vulnerability	10
1.6 Rationale of Present Study.....	11
1.7 Aim and Objectives of study.....	14
1.8 Organization of Thesis.....	14
CHAPTER 2 LITERATURE REVIEW	15
2.1 Basics of Groundwater Contamination.....	15
2.2 Groundwater Contamination Source Identification	15

2.3 Approaches for Groundwater Vulnerability Assessment	19
2.4 Limitations and Upgradation of DRASTIC Analysis	22
2.5 Groundwater Quality Assessment/Correlation Analysis	26
2.6 Public Health Risk Assessment	30
2.7 Groundwater Management Strategies.....	33
CHAPTER 3 STUDY AREA AND DATA COLLECTION.....	37
3.1 General.....	37
3.2 Hydro-meteorology of Study area	38
3.3 Surface Water Sources	39
3.3.1 Narmada river	40
3.3.2 Mahisagar river	40
3.3.3 Narmada canal Details between Mahisagar and Narmada area.....	41
3.4 Geohydrology of study area.....	42
3.4.1 Geohydrology of Vadodara District.....	42
3.4.2 Geohydrology of Bharuch District.....	43
3.5 Population census data.....	43
3.5.1 Geohydrology of Panchmahal District.....	44
3.6 Area Specific Anthropogenic Activities	44
3.6.1 Anthropogenic Activities in Bharuch district	44
3.6.2 Anthropogenic Activities in Vadodara district	45
3.6.3 Anthropogenic Activities in Panchmahal district	45
3.7 DATA COLLECTION	46
CHAPTER 4 METHODOLOGY.....	78
4.1 Comprehensive Research Action Plan.....	78

4.2 Source Identification of Groundwater Contamination.....	82
4.3 Assessment of Groundwater Vulnerability.....	83
4.4 Groundwater Quality Index and Correlation Analysis	86
4.5 Strategy for reduction of Nitrate concentration to minimize the health risk	86

CHAPTER 5 GROUNDWATER CONTAMINATION SOURCE

IDENTIFICATION88

5.1 General.....	88
5.1.1 Multivariate Statistical Analysis	88
5.1.2 Z-Score for Data standardization.....	88
5.1.3 Principal Component Analysis (PCA).....	89
5.1.4 Hierarchical Cluster Analysis (HCA).....	89
5.2 Methodology for Identification of Groundwater Contamination Sources.....	90
5.3 Principal Components Analysis Outcomes.....	91
5.4 Hierarchical Cluster Analysis (HCA) Outcomes.....	97
5.3 Results and Discussion	98

CHAPTER 6 ASSESSMENT OF GROUNDWATER VULNERABILITY..102

6.1 Groundwater Vulnerability Assessment	102
6.2 DRASTIC approach.....	102
6.2.1 Ratings of various Parameters	103
6.2.2 Weights of various Parameters (Delphi Committee).....	107
6.2.3 Conventional DRASTIC Analysis.....	108
6.2.4 DRASTIC Model Validation and Outcome.....	109
6.3 Limitations and Upgradation of Conventional DRASTIC Model.....	112
6.3.1 Scope of Upgradation of Conventional DRASTIC Model.....	112

6.3.2 ANN Optimized Weights of Parameters.....	113
6.4 DRASTIC-FS Model (Modified Approach).....	116
6.4.1 Rating of New Parameter (FS).....	117
6.4.2 DRASTIC-FS Analysis.....	118
6.4.3 DRASTIC-FS Model Validation and Outcome.....	121
6.5 DRASTIC-EI Model (Modified Approach).....	124
6.5.1 Rating of New Parameter (EI)	125
6.5.2 DRASTIC-EI Analysis	135
6.5.3 DRASTIC-EI Model Validation and Outcome.....	137
6.6 Correlation Analysis	141
6.6.1 Groundwater Quality Index	141
6.6.2 Correlation between Vulnerability Parameters and Groundwater Quality	147
CHAPTER 7 SUITABLE METHOD FOR REDUCTION OF CONTAMINANT TO MINIMIZE HEALTH RISK	153
7.1 General.....	153
7.2 Flow chart to suggest suitable method to reduce Nitrate in groundwater.....	153
7.3 Health Risk Assessment.....	154
7.3.1 Hazard Quotient.....	155
7.3.2 LULC map, Water Use Scenario and Population Distribution for HRA.....	158
7.3.3 HRA Index.....	160
7.4 Identification of Critical Area.....	161
7.4.1 Ground Truth Study (GTS).....	162
7.5 Suitable method to reduce Nitrate in groundwater with AHP	164
7.6 Outcome of AHP analysis.....	168

CHAPTER 8 CONCLUSIONS.....	170
8.1 Conclusion	170
8.2 Future Scope	173
