

## LIST OF TABLES

Table 3.1 Data requirement and collection .....	47
Table 3.2 MOJS-DDWAS Groundwater quality data (2018-Pre monsoon) .....	48
Table 3.3 MOJS-DDWAS Groundwater quality data (2018-Post monsoon).....	50
Table 3.4 MOJS-DDWAS Groundwater quality data (2019-Pre monsoon) .....	52
Table 3.5 MOJS-DDWAS Groundwater quality data (2019-Post monsoon).....	54
Table 3.6 MOJS-DDWAS Groundwater quality data (2020-Pre monsoon) .....	56
Table 3.7 MOJS-DDWAS Groundwater quality data (2020-Post monsoon).....	58
Table 3.8 IWRIS-CGWB Groundwater Depth data (2018 Pre and Post monsoon).....	63
Table 3.9 Annual Rainfall from SWDC (2006-2015) .....	64
Table 3.10 Reference Block wise Ground Water Recharge and Extraction (CGWB, 2017) .....	67
Table 3.11 Lithologs in Alluvial region (Source: GWRDC).....	68
Table 3.12 LULC Map of alluvial region from Sentinel (10m) .....	72
Table 3.13 Primary Data Collection (2021-Pre-Monsoon).....	74
Table 3.14 Aquifer Characterization and Disposition – Vadodara District (Source: CGWB).....	77
Table 3.15 Aquifer Characterization and Disposition – Panchmahal District (Source: CGWB). 77	
Table 5.1 Statistical description of MOJS-DDWAS 2018-Pre monsoon data .....	91
Table 5.2 Principal Component Analysis (MOJS-DDWAS-2018-Pre) .....	91
Table 5.3 Factor loadings for PCs after Varimax Rotation (MOJS-DDWAS-2018-Pre).....	92
Table 5.4 Source Identification by PCA.....	94
Table 5.5 Factor Score for 2018 – Pre monsoon .....	95
Table 5.6 Cluster Classification (MOJS-DDWAS-2018-pre) .....	97
Table 5.7 Average of GWQ parameters for each cluster (MOJS-DDWAS-2018-pre) .....	97
Table 6.1 Ratings of DRASTIC Parameters (Depth to water table, Net Recharge, Topography, Conductivity) .....	107
Table 6.2 Ratings ® of DRASTIC Parameters (Aquifer media, Soil media, Impact of vadose zone).....	107
Table 6.3 Weights of DRASTIC parameters by Delphi committee .....	108
Table 6.4 Conventional Groundwater Vulnerability outcome in terms of % area .....	110
Table 6.5 ANN weight optimization.....	114

Table 6.6 ‘FS’ Parameter Ratings .....	117
Table 6.7 Single Parameter Sensitivity Analysis (FS) – Pre-Monsoon .....	119
Table 6.8 Single Parameter Sensitivity Analysis (FS) - Post-Monsoon .....	120
Table 6.9 Groundwater Vulnerability outcome in terms of % area .....	122
Table 6.10 Statistical summary of Ratings assigned in DRASTIC-FS model - Pre-Monsoon ..	122
Table 6.11 Statistical summary of Ratings assigned in DRASTIC-FS model - Post-Monsoon.	122
Table 6.12 Rating of Location of Industries & STPs.....	125
Table 6.13 Ratings of Rural Sanitation.....	125
Table 6.14 Proximity Analysis for Industries and STPs.....	126
Table 6.15 Single Parameter Sensitivity Analysis (EI) – Pre-Monsoon.....	136
Table 6.16 Single Parameter Sensitivity Analysis (EI)- Post-Monsoon.....	137
Table 6.17 Statistical summary of Ratings assigned in DRASTIC-EI model - Pre-Monsoon ...	138
Table 6.18 Statistical summary of Ratings assigned in DRASTIC-EI model - Post-Monsoon .	138
Table 6.19 Groundwater Vulnerability outcome in terms of % area .....	139
Table 6.20 Governing formulas of groundwater quality Index .....	142
Table 6.21 Groundwater quality parameters basic statistics and weight assignment .....	143
Table 6.22 Spearman correlation among Groundwater quality and vulnerability parameters 2018- Pre .....	147
Table 6.23 Spearman correlation among Groundwater quality and vulnerability parameters 2018- Post.....	148
Table 6.24 Vul. Para. With NO <sub>3</sub> .....	149
Table 6.25 Vul. Para. With TDS.....	150
Table 6.26 Vul. Para. With F .....	151
Table 6.27 Vul. Para. With GWQI .....	152
Table 7.1 Area Distribution of HRA for Children and Adults .....	157
Table 7.2 Rating for HRA.....	159
Table 7.3 Area Distribution of HRA-Whole.....	160
Table 7.4 Criteria comparison matrix .....	166
Table 7.5 Average random consistency index RCI .....	166
Table 7.6 Remedial alternatives comparison matrix for initial cost (IC) .....	166

Table 7.7 Remedial alternatives comparison matrix for operation and maintenance cost (OMC)	166
Table 7.8 Remedial alternatives comparison matrix for remediation time (RT)	166
Table 7.9 Remedial alternatives comparison matrix for Removal Rate (RR)	167
Table 7.10 Remedial alternatives comparison matrix for groundwater table (GWT)	167
Table 7.11 Remedial alternatives comparison matrix for Aquifer Material (AM)	167
Table 7.12 Remedial alternatives comparison matrix for Location Specific Characteristic (LSC)	167
Table 7.13 Remedial alternatives comparison matrix for Contamination Level (CL)	168
Table 7.14 Weights of criteria and alternatives from AHP	168
Table 7.15 Groundwater Nitrate from primary data collection and sample location specific characteristics	169
