

TABLE OF CONTENTS

List of Figures	III
List of Tables	IV
List of Plates	V
Abbreviations	X

CHAPTERS

1. INTRODUCTION	1
1.1 Aquatic Ecosystem	1
1.2 Freshwater Ecosystem	1
1.3 Rivers and Streams	2
1.4 Wetlands	2
1.5 Ponds	3
1.6 Lakes	3
1.7 Classification of Lakes in India	3
2. REVIEW OF LITERATURE	12
3. MATERIALS AND METHODS	17
3.1 Study Area	17
3.1.1 Frequency of Visit	18
3.1.2 Data Analysis	18
3.1.3 Fishing methodology	18
3.1.4 On-site observation	19
3.1.5 Laboratory work	19
3.1.6 Specimen Preservation	20
3.2 DNA Extraction	21
3.2.1 Quantification of genomic DNA	23
3.2.2 DNA Amplification	23
3.2.3 Cytochrome C Oxidase subunit I gene (COI) amplification	24
3.2.4 Agarose Gel Electrophoresis	25
3.2.5 Preparation of samples and scanning of gels	26
3.2.6 Purification of amplified PCR products	26

3.2.7	Cycle Sequencing	27
3.2.8	Purification of Cycle Sequencing Products	28
3.2.9	Capillary electrophoresis	28
3.2.10	Analysis of sequence and submission of Barcodes to the National Centre for Biotechnology Information (NCBI)	29
3.2.11	Phylogeny analysis	29
3.3	Analysis for Parasitic data	29
3.3.1	Parasitic Species Identification	30
3.3.2	Pathogenic Analysis	31
4.	RESULT AND DISCUSSION	32
4.1	Anand	34
4.2	Kheda – Nadiad	36
4.3	Vadodara	37
4.4	Dahod	38
4.5	Panchmahal	39
4.6	Narmada	41
4.7	The Aquaculture status	42
4.8	Species Diversity	44
4.9	Parasitic Results	51
4.9.1	Branchiomycosis	51
4.9.2	Argulosis	54
4.9.3	Lernaeosis	59
4.9.4	Spring Viremia in Carp (SVC)	62
4.9.5	Tail and Fin rot disease	63
4.9.6	<i>Ichthyophthirius</i> (White Spot Disease)	64
4.9.7	Black spot diseases	64
5.	CONCLUSION	66
6.	BIBLIOGRAPHY	68
	SUMMARY	85

List of Figures

Figure No.	Title	Page No.
1.	Represents the Group Ostraiophysyi	7
2.	Depicting the cumulative maps	35
3.	Map depicting Classification of ponds based on Area (Anand district)	36
4.	Map showing the Aquaculture status (Anand district)	36
5.	Shows the classification of Ponds based on Area (Nadiad district)	37
6.	Shows the Pond having Aquaculture status (Nadiad district)	37
7.	Shows the classification of Ponds based on Area (Vadodara district)	38
8.	Shows the Pond having Aquaculture status (Vadodara district)	39
9.	Shows the classification of Ponds based on Area (Dahod district)	39
10.	Shows the Pond having Aquaculture status (Dahod district)	40
11.	Shows the classification of Ponds based on Area (Panchmahal district)	41
12.	Shows the Pond having Aquaculture status (Panchmahal district)	41
13.	Shows the classification of Ponds based on Area (Narmada district)	42
14.	Shows the Pond having Aquaculture status (Narmada district)	42
15.	Depicts the overall Aquaculture status	43
16.	Shows the Species Richness	45
17.	The graph displays the percentage of species in various orders	49
18.	Graph showing the number of Families belonging to different orders	50
19.	The Phylogenetic tree for the sequence data	51
20.	Incidence and abundance Argulus in Ornamental and Cultivable fishes	58

List of Tables

Table No.	Title	Page No.
1.	PCR Conditions for Fish samples	26
2.	The list of primers with sequence (For Fish samples)	26
3.	Quantity of reagents used for Cycle Sequencing	29
4.	The list of primers with sequence (For Parasitic samples)	32
5.	List of Major Rivers at the Central Gujarat	34
6.	List of Major Waterbodies	34
7.	List of Fishes with their Order, Family, Scientific name, Common name, IUCN status and Level of Abundance	46
8.	Species Sequence Data with Accession Number	46
9.	Incidence, abundance and number of parasites collected from fresh water fishes	46
10.	Gives the Prevalence data about the Lernaea species	46
11.	The datasheet about Aquaculture status of water sheets from all districts.	43
12.	List of freshwater fishes with their Order, Family, Scientific name, Common name, IUCN status and level of abundance	46
13.	Species Sequence Data with Accession Number	50
14.	Incidence, abundance and number of parasites collected from fresh water fishes	58
15.	Gives the Prevalence data about the Lernaea species	63

List of Plates

Plate No.	Title	Page No.
1.	Showing Freshwater Ecosystems	2
2.	Study area Map	18
3.	The image shows Cast netting	20
4.	Shows the standard identification method	21
5.	This image shows the Preservation process	22
6.	Image depicting the process of DNA extraction	24
7.	Image depicting the PCR process	25
8.	Image depicting the Gel Electrophoresis process	27
9.	This image depicts the collection of Ectoparasites	31
10.	Image depicting the Endoparasites examination	31
11.	Map depicting Central Gujarat area	33
12.	The image shows the infestation of the Fungi <i>Branchiomyces sp.</i> in the gill tissue of <i>Labeo Catla</i> species.	54
13.	Normal Gill Tissue (45x)	54
14.	Infected tissue showing the progressive necrosis in different areas of gill filaments (45x)	54
15.	Fungal mycelia (Arrow) in the gill tissue (10x)	54
16.	Primary degradation (10x)	54
17.	Secondary degradation (10x)	54
18.	Tertiary level of tissue degradation (10x)	54
19.	Image showing <i>Argulus sp.</i>	56
20.	<i>Argulus</i> infestation in <i>Labeo rohita</i>	59
21.	<i>Argulus</i> infestation in <i>Labeo Catla</i>	59
22.	Image shows <i>Lernaea sp.</i>	61
23.	A. Shows the site of attachment of the <i>Lernaea sp.</i> B. Represents the Lesions	62
24.	Infected fish sample of SVC	64
25.	Image depicts the Infected Fish with Tail and Fin rot	65
26.	Image depicts infected fish (Black spot disease)	66
27.	Image taken after treatment (Black spot disease)	66
