Preface	vii
1 Introduction	1
1.1 Preliminaries	3
1.2 Literature survey and motivation	7
1.3 Overview of thesis	19
2 Distributional chaos on uniform spaces	22
2.1 Topological distributional chaos and topological specification property	23
2.2 Invariance of topologically distributionally scrambled set	31
3 Distributional chaos in a sequence on uniform spaces	38
3.1 Li-Yorke chaos on uniform spaces	39
3.2 Topological distributional chaos in a sequence	43
3.3 Equivalence between Li-Yorke chaos and topological distributional chaos in a sequence	46
4 Various forms of specification on uniform spaces	52
4.1 Pointwise topological specification property	53
4.2 Relation between pointwise topological specification property and other notions of chaos	58
4.3 Pointwise specification under orbital convergence	66
4.4 Weaker forms of topological specification property	69

5	Distributional chaos for \mathbb{Z}^d-actions	75
5.1	Multidimensional distributional chaos	76
5.2	Relation between the notions of specification and distributional chaos for \mathbb{Z}^d -actions	78
6	On k-type distributional chaos in a sequence for \mathbb{Z}^d-actions	84
6.1	k -type distributional chaos in a sequence	85
6.2	k -type Li-Yorke Chaos	88
6.3	Relation between k -type Li-Yorke chaos and k -type distributional chaos in sequence	91
	Bibliography	101
