

Table of Content

Chapter 1	Introduction	
1.1	Coastal region/area	Page 1
1.2	Coastal pollution	Page 3
1.3	Pathways of pollutant distribution in the coastal area	Page 4
1.4	Physico-chemical characteristics, heavy metals content of coastal water and sediment	Page 7
1.5	Coastal microorganisms	Page 9
1.6	Environmental potential of microorganisms	Page 10
1.7	Lacunae of the study area	Page 11
1.8	Aim and Objective	Page 11
Chapter 2	Literature Review	Page 12
Chapter 3	Materials and Methods	
3.1	Description of the study area and location of study sites	Page 24
3.2	Spatio-temporal assessment of physico-chemical characteristics and heavy metals content of coastal surface water	Page 35
3.3	Spatio-temporal assessment of physico-chemical characteristics and heavy metal contents of coastal surface sediment	Page 36
3.3.1	Methods for assessing heavy metal pollution in sediment	Page 38
3.4	Spatio-temporal assessment of microbial diversity of coastal surface sediment	Page 41
3.4.1	Isolation media and cultivation conditions for marine microbes	Page 41
3.4.2	Isolation, enrichment and taxonomic studies	Page 41
3.4.3	DNA extraction of bacterial colonies	Page 42
3.4.4	16s rRNA amplification	Page 44
3.4.5	BLAST search and phylogenetic study	Page 44
Chapter 4	Results and Discussion	
4.1	Comprehensive hydrochemistry of coastal water	Page 45

4.2	Distribution of dissolved heavy metal content in coastal water	Page 51
4.3	Physico-chemical variation in coastal sediments	Page 54
4.4	Heavy metal content of coastal sediments	Page 58
4.4.1	Assessment of heavy metal contamination in coastal sediment	Page 62
4.4.1.1	Contamination factor (Cf) of heavy metal in coastal sediment	Page 62
4.4.1.2	Enrichment factor (Ef) of heavy metal in coastal sediment	Page 63
4.4.1.3	Geo-accumulation index (Igeo) of heavy metal in coastal sediment	Page 64
4.4.1.4	Ecological risk factor (Er) and Ecological risk index (RI) of heavy metal	Page 67
4.5	Microbial diversity of coastal surface sediment	Page 69
4.5.1	Morphological characteristics of isolates	Page 69
4.5.2	Biochemical characterisation of microbial isolates	Page 73
4.5.3	Overview of identified bacterial isolates	Page 76
Chapter 5	Conclusion	Page 88
Chapter 6	Summary	Page 92
Chapter 7	References	Page 97

List of Figures

Figure 1.1	Coastal area during low tide	Page 1
Figure 1.2	Different sources of pollutants introduction into the coastal area	Page 7
Figure 3.1	Geographical distribution of the sampling sites in the Bhavnagar coastal region, Gulf of Khambhat	Page 26
Figure 3.2	Coastal activities along the studied region, Bhavnagar coast	Page 27
Figure 3.3	On-site observation of Ghogha coast	Page 28
Figure 3.4	On-site observation of Kuda coast	Page 29
Figure 3.5	On-site observation of Mithivirdi coast	Page 30
Figure 3.6	On-site observation of Sosiya coast	Page 31
Figure 3.7	On-site observation of Alang coast	Page 32
Figure 3.8	On-site observation of Sartanpar coast	Page 33
Figure 3.9	On-site observation of Gopnath coast	Page 34
Figure 3.10	Flow chart for DNA extraction from bacterial isolates	Page 43
Figure 4.1	Seasonal variation of coastal water parameters	Page 46
Figure 4.2	Seasonal variation of coastal water parameters	Page 47
Figure 4.3	Seasonal variation of dissolved heavy metal concentration in coastal surface water	Page 53
Figure 4.4	Means values of studied heavy metal of (A) C_f and I_{geo} values; (B) E_f and E_r values	Page 66
Figure 4.5	Growth of isolates on Zobell marine agar plates	Page 71

List of Tables

Table 3.1	Sites with their sampling location and zone distribution	Page 37
Table 3.2	Various pollution indices for a comprehensive analysis utilized in the present study	Page 39
Table 3.3	Classification of pollution indices and contamination levels	Page 40
Table 3.4	Reagents required for the extraction of DNA	Page 42
Table 4.1	Comparison of physico–chemical parameters with other studies in the Gujarat region	Page 49
Table 4.2	Physico-chemical characteristics of coastal sediments	Page 56
Table 4.3	Concentrations of reported heavy metal (mg/kg) in coastal sediments of Bhavnagar coast, Gulf of Khambhat	Page 59
Table 4.4	Seasonal measured concentrations of heavy metal (mg/kg)	Page 59
Table 4.5	Calculated C_f values of heavy metal in coastal sediments	Page 62
Table 4.6	Calculated E_f values of heavy metal in coastal sediments	Page 64
Table 4.7	Calculated I_{geo} values of heavy metal in coastal sediments	Page 65
Table 4.8	Calculated E_r and RI of heavy metal in coastal sediments	Page 68
Table 4.9	Total number growth of colonies observed on the petri dish	Page 70
Table 4.10	Morphological characteristics of bacterial isolates	Page 72
Table 4.11	Biochemical characteristics of isolates	Page 75
