

Acknowledgement

Standing at the concluding stage of the long thought and travelled journey, as I successfully take my first step into the world of science, I would like to extend my sincere regards and gratitude to all those who were a positive part of this tumultuous journey.

*To begin with I bow down to almighty “**Lord Shiva**” for bestowing me with constant blessings and planting opportunities as I travelled my way. For giving me all the strength and courage to walk the tempestuous roads and emerge as a strong individual who believes in oneself. I pray for him to be alongside me forever as he has always been.*

*I would like to pay my sincere regards to the Honorable Vice Chancellor, **Prof. Vijay K Srivastava**; Dean, Faculty of Science, **Prof. H. R. Kataria**, and other University officials of The Maharaja Sayajirao University of Baroda for allowing me to pursue my research work in this esteemed University.*

*I am deeply grateful to my research guide, **Dr. Pradeep Mankodi**. His inspiring guidance, unwavering encouragement, and insightful suggestions were invaluable throughout my research journey. His dedication to helping me navigate challenges and their constant support made this work a truly rewarding learning experience. I have learned the best of his management, strategy building, interacting with societies, and problem-solving ability. He guided me not just during my academic phase but in life as well. I appreciate the certitude that he conveys free hand to his students and lets them chisel their art of work while he will stand by you as your backbone. The passion he brings to the lab is just praiseworthy. He is the most understanding and super chill guide/mentor a student can ever ask for because I never felt the line of seniority or superiority while having any conversation.*

*I am sincerely thankful to **Dr. Sanjay Lal** for helping me with molecular work during the research work and constant guidance, unwavering encouragement, and insightful suggestions were invaluable throughout my research journey.*

*I am sincerely thankful to **Prof. P. Padmaja Sudhakar** Head of the Department of Environmental Studies at The M. S. University of Baroda, for his invaluable support in providing access to the department's infrastructure and instrumental facilities. I would like to*

Gosai., H., G. (2024). Assessment of pollution load of coastal mudflats along the western bank of Gulf of Khambhat with special reference to microbial community structure as bioindicator

*express my deep gratitude to Retd. Head of Department, **Dr. Kauresh D. Vachhrajani** for his valuable support. I would like to express my sincere gratitude towards SHODH Scholarship, Government of Gujarat for financial support. I would like to express my sincere gratitude towards the University Research Scholarship, The Maharaja Sayajirao University of Baroda for financial support.*

*I would like to show my warm thanks to **Dr. Manthan Tailor, Dr. Khushali Pandya, Dr. Ankita Salunke, Dr. Neha Singh, Dr. Bablu Prasad, Dr. Tarika Kumar, Dr. Shilpi Jain, Dr. Gargi Vaidya, Dr. Ankita Upadhyay, Dr. Swati Narolkar, and Dr. Sunil Krishiti** for their kind support and suggestions while pursuing my work.*

*I would like to thank the office staff of the Department of Environmental Studies, especially **Mr. Anil Panchal, Mr. Nilesh Patil** and all other non-teaching staff i.e., **Mr. Dhananjay Jadhav, Mr. Sandip More, Mr. Vitthal Parmar, Mr. Surendra, Mr. Jignesh Solanki, and Mr. Nisarg Solanki** for their generous cooperation which lead to hassle-free function of administrative work in the department.*

*The party is not the place it is the people! and I had some wonderful people with me who accompanied me in this journey. This passage is probably the one with the utmost emotions attached. To begin with, I am extremely grateful to the comrades (my seniors) of the research lab **Dr. Manthan Tailor, Dr. Khushali Pandya, Dr. Santosh Singh, Gazala Sheikh, Dhaval Bhatt, Ajay Baldaniya, Pooja Agravat, and Asmita Chavda** for their constant support. who made the PhD phase fun-filled, joyous and colourful. Frequent tea, coffee visits to making tea in the lab and much more that we shared made the workplace thrilled.*

*I'm extremely grateful to have **Dr. Jalpa Jadeja** as my senior and sister, who is always there with me. Her constant support and guidance helped me to overcome any issues. She is my coffee partner, we always enjoyed drinking coffee at Nescafe and sharing thoughts and ideas. Her expertise and knowledge of geographic information systems helped me make maps for my thesis. I'm thankful for her valuable help and for always being ready to go out and have coffee and snacks. I shall always cherish those moments with love. Thanks for sharing your experiences and letting me understand the situation and helping me with "What to do next?".*

A tiny paragraph will fail to surmise the felt acknowledgements because such bonds are made forever.

*Special thanks to **Gazala Shaikh, Dhaval Bhatt and Ajay Baldaniya** for their creditable contribution in the initial days for constant support and for giving me company in the new environment of research. Gazala Sheikh who helped me to get familiar with the lab and their facilities. Dhaval Bhatt and Ajay Baldaniya both are like big brothers to me. They took care of me as their little brother. In any situation, both were present and resolved my problem at any time. Dhaval Bhatt's academic achievement in terms of publishing papers inspired me to publish a more publication while Ajay Baldaniya jolly nature helped me to overcome any situation. Ajay Baldaniya always encouraged me by saying "Don't worry too much, if I can submit a thesis on time, you will also". Even though Ajay Baldaniya is little bit bad at garba but I have enjoyed his company while doing Garba. I'm thankful to both **Asmita Chavda and Pooja Agravat**, I have enjoyed the company of both.*

*I am extremely grateful to Environment research lab comrades **Dr. Monika Yadav, Dr. Jalpa Jadeja, Divya Patel, Foram Jadeja, Mridu Kulwant, Narottam Priyadarshi, Vaidehi Shah, Asha Sharma, Dayanjali Thakkar, Shivani Raval, Yuti Desai, Jagriti Patel, Prerak Pathak, Monark Bhatt, Pranam Bhandari, Soumyadeep Choudhary, Shraddha Kanzariya, Foka Tagne Jeanlin, Arunima Khare, Apurva Marathe, and Hetvi Dave, Radhika Rao, Dr. Naznin Sheikh, and Virang Vasveliya** for a friendly environment, encouragement, help and support.*

*I'm grateful to my senior **Dr. Monika Yadav** who helped me in the initial days. She always guided me and taught me how to operate Atomic Absorption Spectroscopy. She also helped me during my first-ever paper publication of my dissertation in my academic journey. She taught me how to write a paper and what should be the flow of paper. She helped me to publish the second publication of my career and the first-ever Springer Nature publication of my life. After that, I received so many invitations from the editors for contributions to their upcoming Springer Nature books. It boosted my publication journey.*

*I'm thankful to my both seniors **Divya Patel and Mridu Kulwant**, I always enjoyed both companies during this period for stimulating discussions and for all the fun we had during my research period. Even though both are seniors, I don't feel like a junior when I'm with them.*

They both are my tea buddies. They both brought food from the mess and shared it with me. Thanks for bringing me food even though I didn't eat many times.

*I'm extremely thankful to both senior **Himakshi Parmar** and **Shruti Chaudhary**. In a funny context, I'm the senior for them. Because I never felt like the junior/senior relationship. We always made funny comments on each other. Himakshi Parmar always supported, encouraged and helped me during my water analysis and any doubt related to experiments. She is the one whom I can count on. On the other hand, Shruti Chaudhary's knowledge and expertise regarding microplastics encouraged me to learn about it. Both, Himakshi Parmar and Shruti Chaudhary of them brought tiffin with delicious food, for me whenever I needed it. I have shared good memories with both of them from drinking tea, and coffee at Nescafe to eating Fry Frenchie's. Himakshi Parmar gave a heads-up regarding the publication of my PhD, that's why I started writing early and published 2 research papers before completing 3 years of PhD.*

*I'm extremely thankful to my senior **Foram Jadeja** for bringing delicious food and constant support. Her expertise in GIS helped me a lot. I have learned many things regarding GIS from her. I didn't have any insider contact before getting admission, but Foram suggested my name without even knowing me to the ex-head of the Department for enrollment in PhD. After admission, I came to know that she was the one who suggested my name that's why I got admission. Her recommendation gave a little push for my admission. It's very hard to get admission if you don't have any insider student who is already in the Department or University, I'm thankful for that. Words can't express how grateful I am. Although, she is my Nescafe coffee buddy, Subway buddy, and Garba buddy. I could rely on her whenever my absence from the lab was unavoidable. We both always worked as a team. Special thanks for helping me with administrative work, too. I know I can always count on her.*

*I'm thankful to **Narottam Priyadarshi** who helped me to arrange a microbial lab at old building of Environmental Studies. He helped me to execute the idea of making a separate microbial lab. We have shared many good memories. Whenever any chemical is unavailable in our department, He always helps to find chemicals from any department of MSU. He helped me so many times by not doing his research work. We always shared good memories of drinking tea, eating Poha, bread butter, and eating lunch at different places. He always came with me for morning breakfast. I'm thankful to him for making my journey easy.*

*I'm extremely thankful to **Asha Sharma**. She always helped me wherever and whenever I needed. Her knowledge of soil assessment was helpful in my soil analysis. She always motivated me. She always took me with her for tea, she is my tea buddy; while drinking tea we both shared our issues regarding research work with each other. We both shared a good bond that can never expressed in words. I'm glad that she joined as a PhD student. Even though she was senior in age, I never felt like she was my senior. Whenever I needed some suggestions, she always helped me. I know I can always count on her.*

*My juniors **Jagriti Patel, Prerak Pathak, Shivani Raval, Yuti Desai, Monark Bhatt, Pranam Bhandari, and Soumyadeep Choudhary** even though you guys joined the lab after 1.5-2 years of my PhD, you guys were always helpful wherever and whenever I needed. I have always enjoyed the company of you guys. I am very grateful to **Jagriti Patel**, she helped me continuously during my microbial work and we shared coffee and chichat at Nescafe. Thanks to **Prerak Pathak** and **Shivani Raval** for sharing your delicious food. Thanks to trying to be GenZ **Yuti Desai** for entertaining the journey, sharing coffee, and chitchatting with me. Thanks to **Monark Bhatt** for helping me with the sifting of microbial equipment on the third floor of the building, and helping me with the doubt related to the chemistry. Thanks to **Soumyadeep Choudhary** for always giving me company while drinking tea, coffee, for breakfast and lunch.*

*Further, I want to acknowledge the Research Scholars of the other Departments who formed a healthy scientific environment. I would also like to acknowledge my friends **Niketa Maheta, Alisagar Vohra, Nishi Pandya, Pankaj Sharma, Parikshit Dhaduk, Swati Fumakiya, Rifat Khira, Jahnavi Mehta, Rhythm Karnik** from the Zoology department, **Krishna Bhutiya** from Biochemistry Department and **Shivani Raval** and **Ajinkya Rahane** from Microbiology Department.*

*I'm extremely grateful to my senior **Niketa Maheta**, in the initial phase we shared delicious tiffin at the environment department. She is also my nescafe coffee partner. We have a very good bond, we have shared many good memories. I can share whatever, she always treated me as me his lil brother. I'm extremely thankful to her.*

*I'm extremely grateful to **Parikshit Dhaduk** for always giving me company during tea, breakfast and during badminton games. I enjoyed playing badminton with him, he is a good*

badminton player. His jolly nature always lightened stressful environment. He is the one who I can count on.

*I'm thankful to my juniors **Palak Savaliya, Kunal Joshi, Bhumi Kothia, Priya Patel, and Saklain Saiyad** of ARIBAS College for giving company during molecular biology labwork at ARIBAS College. I'm happy that I have met them. They helped me a lot during my work.*

*I'm extremely thankful to **Dr. Sagar Prajapati**, his expertise in microbial cleared my doubts. He always helped in one call; he also helped me with molecular biology work by providing many products that helped me during molecular biology work.*

*I'm extremely grateful to **Mr. Gopal Tandale** from the Dean's office, Faculty of Science for guiding any issue related to my PhD admission or any documents and facilitating the speedy execution of the office work documents. I am extremely grateful to **Ms. Sonal Jadhav** at the administrative and exam section of MSUB head office, for facilitating the speedy execution of the administrative processes right from PhD registration to the final submission of this thesis. I am thankful to **Mr. Jignesh Raval** for providing his car for the field visit without any doubt. I am thankful to have a big brother like him who treats me as his little brother. He always guided me and supported me whenever I needed it.*

*I am extremely thankful to **Mr. Bhavnath Swami** and **Mrs. Jignasha Swami** both helped me during my field visits. Mr. Bhavnath came with me during the field visit and Mrs. Jignasha Swami made food that I ate during the field visit. I'm thankful to them because whenever I went for a field visit, they both always welcomed me with warm hearts. I am grateful to **Hasti** and **Param** who made my day better, both of them are cherished and stress relievers kids.*

*My warm and heartfelt thanks to two persons who mean a lot to me, my beloved parents **Mr. Ghanshyamgiri Lalgiri Gosai** and **Mrs. Varshaben Gosai**. for showing faith in me and giving me time and support. They have been selfless in giving me the best of everything and I express my deep gratitude for their love and sacrifices, without which this work would not have been completed. I'm thankful to them because they let me pursue my career even covid is still out there. My father pursued a B.Ed. and became a teacher at school which inspired me to become an academician like him. He is the first one in our Gosai family to get the highest education*

qualification degree and I'm the second one after him with the highest qualification in our entire Gosai family.

*I take this moment to express my gratitude to my better half, **Devki**, for understanding and supporting my goals and aspirations that made the completion of my PhD possible. Her love, care and encouragement have been my strength even in tough times. Her patience and sacrifice will continue to be my inspiration and I am thankful to her for believing in my capabilities more than I did.*

This list is endless and can go on and on. My apologies and heartfelt gratitude to anyone whom I have missed out, but these people also had some other role to play during my study.

Last but not least, I wanna thank me; I wanna thank me for believing in me; I wanna thank me for doing all this hard work; I wanna thank me for never quitting; I wanna thank me for just being me at all times.

~HARDIK GIR GOSAI~
