List of Figures	x
List of Tables.....	xiii
ABSTRACT	xv
SYNOPSIS	xvii
Chapter 1 Introduction	1
1.1 Introduction	1
1.2 Objective	13
1.3 Plan of work	13
Chapter 2 Literature Review	15
2.1 Iron ore	15
2.2 Specification of Iron ore	17
2.3 Mineralogical studies	19
2.4 Beneficiation of ore:	28
2.5 Agglomeration of iron ore with carbonaceous materials:	32
2.6 Reduction studies on cold bonded composite briquette / pellet:	41
2.6.1 Theory of Reduction	41
2.6.2 Reviews on Reduction of Composite Pellet / Briquette.....	45
2.7 Smelting Reduction Process	48
2.7.1 Feasibility of iron ore-coal composite pellet/briquette in smelting reduction processes	51
Chapter 3 Mineralogical Studies and Beneficiation of Low-grade Iron Ores	52
3.1 Procurement of raw materials.....	52
3.2 Mineralogical and Characterization Studies.....	52
3.2.1 Megascopic studies of ores	53
3.2.2 Hardness of ore by Mohs scale	54
3.2.3 Density of ore.....	54
3.2.4 Microscopic observation	55
3.2.5 Phase identification (by XRD).....	59
3.2.6 SEM & EDS Analysis.....	63
3.2.7 Chemical analysis of iron ore (by XRF)	66

3.2.8	Proximate analysis of coke and charcoal	67
3.3	Beneficiation studies of low-grade iron ore	69
3.3.1	Beneficiation of Odisha (O) low-grade iron ore	69
3.3.2	Beneficiation of Rajasthan (R) low-grade iron ore	73
Chapter 4	Experimental Set-up for Reduction Studies and Smelting Reduction	84
4.1	Briquette Preparation.....	84
4.2	Stoichiometric calculation:.....	85
4.3	Evaluation of the Properties of Composite Briquettes	87
4.4	Construction of tube furnace	88
4.5	Isothermal studies of composite briquette.....	89
4.4.1	Phase identification (by XRD).....	91
4.4.2	SEM Analysis	91
4.6	Calculation of Rate of reduction (k) and activation energy (E_A)	91
4.7	Non-isothermal reduction studies by TG-DTA.....	92
4.8	Smelting reduction studies	93
4.9	Mould preparation	94
4.10	Smelting Reduction of Composite briquette in Induction Furnace	95
4.11	Microstructure of steel products and hardness measurement.	97
Chapter 5	Result and discussion of Reduction Studies and Smelting Reduction.....	98
5.1	Result and discussion of isothermal reduction	98
5.1.1.	Result of type-AA composite briquette.....	98
5.1.2	Result of type-AB composite briquette.....	102
5.1.3	Result of type-BA composite briquette.....	105
5.1.4	Result of type-BB composite briquette.....	110
5.2	Phase identification of composite briquette by XRD.....	115
5.3	SEM analysis	119
5.4	Non isothermal reduction studies of composite briquettes (TG-DTA).....	120
5.5	Result of Smelting Reduction.....	127
5.6	Microstructure of steel product	131
5.7	Hardness of steel structure.....	132
Chapter 6	Summary and Suggestions for Further Work	134
6.1	Summary	134
6.2	Suggestions for Further Work	139
