

# LIST OF TABLES

---

<b>Sr. No.</b>	<b>Table</b>	<b>Table Caption</b>	<b>Page No.</b>
<b>Chapter 2 Literature Study</b>			
1	Table 1	ALR Datasets for Alphabets and Digits	29
2	Table 2	Models used for datasets of Alphabets and Digits, words, phrases, and sentences	30
3	Table 3	ALR work for Indian languages	36
4	Table 4	Classification of Devanagari Alphabets	37
5	Table 5	Alphabets and their corresponding phonics	38
<b>Chapter 3 Proposed Work</b>			
6	Table 6	Working of ViLiDEx algorithm	52
<b>Chapter 4 Result Analysis</b>			
7	Table 7	Training and Testing setup	55
8	Table 8	Configuration of Laptop PC used for training and testing	56
9	Table 9	Class wise alphabet	59
10	Table 10	Four cases of parameters	59
11	Table 11	Four cases for result analysis (15 frames)	60
12	Table 12	Four cases for result analysis (20 frames)	62
13	Table 13	Precision, Recall, and F1 score for Case 1(15 frames)	64
14	Table 14	Precision, Recall, and F1 score for Case 2(15 frames)	66
15	Table 15	Precision, Recall, and F1 score for Case 3(15 frames)	68
16	Table 16	Precision, Recall, and F1 score for Case 4(15 frames)	70
17	Table 17	Accuracy for 4 cases for different number of epochs (15 frames)	71
18	Table 18	Precision, Recall, and F1 score for Case 1(20 frames)	73
19	Table 19	Precision, Recall, and F1 score for Case 2(20 frames)	75
20	Table 20	Precision, Recall, and F1 score for Case 3(20 frames)	77
21	Table 21	Precision, Recall, and F1 score for Case 4(20 frames)	79
22	Table 22	Accuracy for 4 cases for different number of epochs (20 frames)	80
