Tables

Table 1	Mixed methods explanatory sequential research design.....	53
Table 2	Objectives, variables and assessment measures.....	62
Table 3	Modifications in the tool after the field testing.....	71
Table 4	Analysis plan of the study.....	76-77
Table 5	Coding example used for qualitative analysis.....	78
Table 6	Demographic characteristics of participants (n= 385).....	82
Table 7	Descriptive statistics comparing men and women on the study variables.....	84
Table 8	Descriptive statistics comparing Gujarat and Uttarakhand on the study variables.....	85
Table 9	Descriptive statistics comparing men and women in Gujarat on the study variables.....	86
Table 10	Descriptive statistics comparing men and women in Uttarakhand on the study variables.....	87
Table 11	Descriptive statistics comparing women in Gujarat and Uttarakhand on the study variables.....	88
Table 12	Descriptive statistics comparing men in Gujarat and Uttarakhand on the study variables.....	99
Table 13	ANOVA table of regression model of socio-demographic variables on emotional dependency.....	93
Table 14	Regression coefficients of socio-demographic variables on emotional dependency.....	93
Table 15	Pearson's correlations between subscales of gender role beliefs and emotional dependency.....	95
Table 16	Regression coefficients of gender role beliefs on emotional dependency.....	97
Table 17	Regression coefficients of sub-categories of gender role beliefs on emotional dependency.....	99

Table 18	Regression coefficient of emotional dependency on relationship conflict.....	100
Table 19	Regression coefficient of sub-categories of emotional dependency on relationship conflict.....	102
Table 20	Regression coefficient of sub-categories of emotional dependency on relationship satisfaction.....	104
Table 21	Regression coefficient of relationship satisfaction and relationship conflict on well-being.....	106
Table 22	Regression coefficient of different study variables on well-being.....	108
Table 23	Regression coefficient of emotional dependency on well-being	109
Table 24	Regression coefficient of different study variables on negative emotions (well-being).....	110-111
Table 25	Regression coefficient of emotional dependency on negative emotions (well-being).....	112
Table 26	Regression coefficients of different study variables on relationships (well-being).....	113-114
Table 27	Regression coefficients of emotional dependency on relationships.....	115
Table 28	Regression coefficients of different study variables on positive emotions (well-being).....	116-117
Table 29	Regression coefficients of emotional dependency on positive emotions (well-being).....	118
Table 30	Regression coefficients of different study variables on accomplishment (well-being).....	119
Table 31	Regression coefficients of emotional dependency on accomplishment (well-being).....	120
Table 32	Regression coefficients of different study variables on engagement (well-being).....	122
Table 33	Regression coefficients of different study variables on happiness (well-being).....	123

Table 34	Regression coefficients of emotional dependency on happiness (well-being).....	124
Table 35	Regression coefficients of different study variables on health (well-being).....	124-125
Table 36	Regression coefficients of different study variables on meaning (well-being).....	126
Table 37	Regression coefficients of emotional dependency on meaning (well-being).....	127
Table 38	Regression coefficients of study variables on loneliness (well-being).....	128
Table 39	Regression coefficients of emotional dependency on loneliness (well-being).....	130
