

ACKNOWLEDGEMENTS

The research presented in this thesis would not have been possible without the support and encouragement of many individuals. I take this opportunity to express my heartfelt gratitude to them for their invaluable assistance in completing my Ph.D. thesis.

I extend my deepest gratitude to my supervisors, **Prof. Someshwar S. Bhattacharya** (Former Head and Dean, Faculty of Technology and Engineering, MSU Baroda) and **Prof. Ramasamy Alagirusamy** (Head, Textile and Fiber Engineering, IIT Delhi), for their invaluable guidance, support, belief, patience, and constant encouragement throughout my research. I am profoundly indebted to them for their significant contributions as Ph.D. advisors, which broadened my knowledge and elevated the quality of my work. Their understanding and flexibility enabled me to balance my full-time job responsibilities with my Ph.D. program, making this journey both achievable and fulfilling.

I am deeply grateful to Prof. Apurba Das (Textile and Fiber Engineering, IIT Delhi) and Prof. Dipti R. Sahoo (Department of Civil Engineering, IIT Delhi) for their insightful discussions and support during the initial phase of my research. I also sincerely acknowledge the guidance and expertise shared by Prof. Thomas Gries (Director, ITA Institut für Textiltechnik der RWTH Aachen University, Germany), Dr.-Ing. Mohit Raina (Managing Director, Raina Industries Pvt. Ltd., Mumbai), and Dr. Udityasinh Gohil (Principal in Strategy Consulting, Ritzenhoefer & Company, Germany).

I extend my sincere gratitude to the faculty and staff members of the Textile Engineering Department, Faculty of Technology and Engineering, MSU Baroda. I am deeply thankful to Dr. Satyajeet B. Chaudhari (Head of Department) for his motivation, support, and for granting the necessary permissions to test yarn and fabric specimens. I also wish to express my gratitude to Dr. Tasnim N. Shaikh, Dr. S. Periyasamy, Dr. Milind V. Koranne, and Dr. Bharat H. Patel (Textile Chemistry Department) for their valuable suggestions, encouragement, and support. Special thanks are due to Mr. Amrish P. Kachhiya (Laboratory Assistant) for his assistance with the tensile testing of yarn, fabric, and composite specimens.

I extend my gratitude to the faculty and staff members of the Applied Mechanics Department, Faculty of Technology and Engineering, MSU Baroda. I am deeply thankful to Dr. J. D. Rathod (Head, Applied Mechanics Department) for granting permission to test concrete specimens in the Structural Mechanics Laboratory, and to Dr. D. R. Panchal for

providing the digital dial gauge used to measure concrete plate deflection. I also wish to acknowledge the invaluable support of Mr. Jaimin K. Shah, Mr. Parth C. Shah, and laboratory staff members Mr. Ashok D. Parmar, Mr. Vishal, Mr. Yogesh C. Pawar, and Mr. Arun G. Solanki during the testing of concrete specimens.

I extend my heartfelt appreciation to my friends Trinayan Borgohain, Abhay Kumar, Yakshil Choksi, Parth Shah, Nilesh Suthar and Priyesh Pandey, as well as my former lab mates at IIT Delhi, including Dr. Ramamoorthy M., Dr. J. Krishnaswamy, Ms. Renuka S., Dr. Uday Raj, Dr. Mahadev Bar, Dr. Vijay Goud, Dr. Ghanshyam, Dr. Navdeep Kumar, Dr. Rahul Gadkari, and Dr. Sanchi Arora, for their insightful technical discussions, companionship, and unwavering support.

I am deeply grateful to the faculty members of the Mechanical Engineering Department, Faculty of Technology and Engineering, MSU Baroda. I extend my heartfelt thanks to Dr. P. P. Gohil (Head, Mechanical Engineering) for permitting the use of the Composite Laboratory for the microscopic examination of yarn cross-sections. I also sincerely thank Mr. Urvish A. Patel for his invaluable assistance in operating the microscope and capturing images.

I also extend my gratitude to the Commissionerate of Technical Education, Gandhinagar, Gujarat, and former in-charge Principal Shri Yogesh M. Gandhi (former Head, Textile Manufacturing Technology Department) of Sir Bhavsinhji Polytechnic Institute, Bhavnagar, for issuing the no-objection certificate for carrying out external Ph.D. research. I am also thankful to the faculty members of Sir Bhavsinhji Polytechnic Institute, Bhavnagar, particularly Shri H. K. Bhatt (Head, Applied Mechanics Department, and in-charge Principal), for providing access to the structural laboratory facilities for fabricating concrete specimens. I am grateful to my colleagues from the Applied Mechanics and Civil Engineering Departments at Sir Bhavsinhji Polytechnic Institute—Mr. P. H. Meghani, Mr. R. M. Valaki, and Mr. P. H. Joshi—for their valuable insights into mix design and the casting of concrete specimens. I sincerely appreciate the encouragement and support from the Textile Manufacturing Technology Department, especially former in-charge Head Shri Chetan G. Patel, current in-charge Head Dr. S. S. Parmar, and my colleague Shri J. G. Sorani.

I am sincerely thankful to my dedicated students – Ms. Jalpa, Mr. Devanshu, Mr. Rutvik, Mr. Harsh, Mr. Aman, and Mr. Rocky— for their efforts in preparing fabric, composites, and concrete specimens.

I sincerely thank Mr. Arvind Nigam (General Manager, Suyog Elements India Pvt. Ltd., Bharuch, Gujarat) for generously providing fly ash and GGBS free of cost for my research. I am also grateful to Mr. Harsh Parmar (Shree Chamunda Plastics, Bhavnagar) for granting access to the braiding machine for developing hybrid yarn specimens. My heartfelt thanks to Mohammed Tabish Anwer (Territory Manager, Fosroc Chemicals India Pvt. Ltd.) for supplying PCE-based superplasticizer free of cost, and to Filatex India Limited, Surat, for their contribution of polyester multifilament yarn at no charge.

I am deeply grateful to my father-in-law, Mr. Mukeshbhai Mistry, and my brothers-in-law, Mr. Bhunit Mistry and Mr. Krupal Suthar, for their invaluable assistance in fabricating the handloom, formwork for casting concrete specimens, and grips for holding tensile specimens.

I wholeheartedly acknowledge the prayers, support, encouragement, sacrifices, and understanding of my family members, particularly my parents, Mr. Charga Ram Barman and Mrs. Kamala Barman; my wife, Purvi; my daughter, Kalyani; and my sisters, Mamoni and Momi.

Above all, I am immensely thankful for the grace of Almighty God and His constant presence, which have given me strength and hope in all situations, guiding me through the challenging phases of this research work.

Lastly, I extend my heartfelt appreciation to everyone whose names I may have inadvertently omitted but who supported and contributed to my Ph.D. journey, directly or indirectly.

Nabo Kumar Barman
