

List of Tables

Table 1-1: Crude Oil Import and Export Detail.....	3
Table 1-2: Non-edible species Botanical names.....	7
Table 1-3: Indian emission standards (4-wheeled vehicles).....	10
Table 1-4: Nitrogen Oxides (NO _x).....	17
Table 2-1: Effect of water injection on performance and emission parameters	30
Table 2-2: effect of additives on performance and emission parameters	31
Table 2-3: Effect of SNCR Technique on NO _x emission.....	33
Table 2-4: Effect of Compression Ratio	36
Table 2-5:Effect of Injection Pressure	38
Table 2-6:Limitation and effectiveness of NO _x emission mitigation technique.....	40
Table 3-1:Madhuca longifolia (A year cycle).....	44
Table 3-2:Notations for Madhuca Longifolia biodiesel and diesel blends	47
Table 3-3:Properties of standard diesel and Madhuca Longifolia biodiesel blends	49
Table 3-4: Technical specification of a test rig.....	51
Table 3-5:Specification of Eddy current dynamometer.....	53
Table 3-6:Specifications of Exhaust Gas Analyser	54
Table 3-7:Specifications of Smoke Meter	55
Table 3-8: Technical Specifications of the Injector	56
Table 3-9:Test Matrix Phase-I Experimentation.....	58
Table 3-10: Flow rate of Injector	58
Table 3-11:Test Matrix Phase-II Experimentation	59
Table 3-12; summery of estimated uncertainty	61
Table 4-1: Emission and Performance result; CR-15, IP-300 bar	62
Table 4-2:Emission and Performance result; CR-15, IP-400 bar	63
Table 4-3:Emission and Performance result; CR-15, IP-500 bar	63
Table 4-4:Emission and Performance result; CR-15, IP-600 bar	64
Table 4-5:Emission and Performance result; CR-16, IP-300 bar	64
Table 4-6:Emission and Performance result; CR-16, IP-400 bar	65
Table 4-7:Emission and Performance result; CR-16, IP-500 bar	65
Table 4-8:Emission and Performance result; CR-16, IP-600 bar	66
Table 4-9:Emission and Performance result; CR-17, IP-300 bar	66
Table 4-10:Emission and Performance result; CR-17, IP-400 bar	67

Table 4-11:Emission and Performance result; CR-17, IP-500 bar	67
Table 4-12:Emission and Performance result; CR-17, IP-600 bar	68
Table 4-13:Emission and Performance result; CR-18, IP-300 bar	68
Table 4-14: Emission and Performance result; CR-18, IP-400 bar	69
Table 4-15:Emission and Performance result; CR-18, IP-500 bar	69
Table 4-16:Emission and Performance result; CR-18, IP-600 bar	70
Table 4-17: Maximum value of NOx emission for different parameters	89
Table 4-18: Observations and Results for fuel blend B10, CR-18, IP-600 bar	94
Table 4-19:Observations and Results for fuel blend B10, CR-17, IP-600 bar	95
Table 4-20:Observations and Results for fuel blend B10, CR-16, IP-600 bar	95
Table 4-21:Observations and Results for fuel blend B10, CR-15, IP-600 bar	95
Table 4-22:Observations and Results for fuel blend B20, CR-18, IP-600 bar	96
Table 4-23:Observations and Results for fuel blend B20, CR-17, IP-600 bar	96
Table 4-24:Observations and Results for fuel blend B20, CR-16, IP-600 bar	96
Table 4-25:Observations and Results for fuel blend B20, CR-15, IP-600 bar	97
Table 4-26:Observations and Results for fuel blend B30, CR-18, IP-600 bar	97
Table 4-27:Observations and Results for fuel blend B30, CR-17, IP-600 bar	97
Table 4-28:Observations and Results for fuel blend B30, CR-16, IP-600 bar	98
Table 4-29:Observations and Results for fuel blend B30,CR-15, IP-600 bar	98
Table 4-30:NOx emission reduction, water injection flow rate wise	100
Table 4-31:CO emission reduction, water injection flow rate wise.....	103
Table 4-32:Smoke emission reduction, water injection flow rate wise	105
Table 6-1: Uncertainty of various measuring Instruments	113
Table 6-2: AVL444N Gas Analyzer Accuracy.....	114
Table 6-3: Uncertainty of NOx emission.....	115
Table 6-4:Uncertainty of CO emission.....	116
Table 6-5:Uncertainty of HC emission.....	117
Table 6-6:Uncertainty of Smoke emission	118
Table 6-7: Summery of estimated uncertainty	119
