

List of Tables:

Content	Page no.
1.1 BMI- based classification of individuals as underweight, overweight and obese	10
1.2 Other indicators for evaluating obesity	13
1.3 Types of M2 macrophages based on stimulations and their phenotype	33
3.1 Antibodies used in western blot	47
3.2 Antibodies used in FACS	47
3.3 2X RT reaction Mix	50
3.4 RT-PCR conditions for cDNA synthesis	51
3.5 RT-qPCR reaction mixture	51
3.6 RT-qPCR reaction conditions	52
3.7 List of primers sequence used in RT-qPCR (THP-1, human)	52
3.8 List of primers sequence used in RT-qPCR (3T3-L1, mouse)	55
