

## Table Index

| Sr. No.                                | Particular  | Page No. |
|--|---|----------|
| <b>Chapter 1: Introduction</b>         |   |          |
| 1.1                                    | Table 1.1: IT Services Employees (India)  | 14       |
| 1.2                                    | Table 1.2: Below is the list of top 10 IT companies in India in Year 2024                   | 15       |
| 1.3                                    | Table 1.3: Below is the list of top 10 IT Companies in Gujarat-2024                         | 16       |
| <b>Chapter 2: Literature Review</b>    |   |          |
| <b>Chapter 3: Research Methodology</b> |   |          |
| 3.1                                    | City Wise Distribution of Sample Size for calculating Total Sample Size                     | 81       |
| 3.2                                    | Questionnaire Design  | 82       |
| 3.3                                    | Employee's Productivity Factors   | 88       |
| 3.4                                    | The Impact of Work Stress on the Perceived Level of Employee Productivity                   | 91       |
| 3.5                                    | Measurement of Employee's Job Satisfaction  | 93       |
| 3.6                                    | To Consider Suitable to Reduce Stress at the Personal Level & Organizational Level          | 94       |
| <b>Chapter 4: Data Analysis</b>        |   |          |
| 4.1.1                                  | Table 4.1.1 shows how frequent respondents feel stressed with the demand of work.           | 98       |
| 4.1.2                                  | Table 4.1.2 shows the level of work stress.   | 99       |
| 4.1.3                                  | Table 4.1.3 shows how often organization conduct stress reduction programs for employees.   | 100      |
| 4.1.4                                  | Table 4.1.4 shows whether organization should adopt some more stress management strategies. | 101      |
| 4.1.5                                  | Table 4.1.5 shows the stress level while working from home during                           | 102      |

|           |   |     |
|-----------|---|-----|
|           | Covid-19.   |     |
| 4.1.6     | Table 4.1.6 shows the impact of work stress on productivity.  | 104 |
| 4.1.7     | Table 4.1.7 shows the overall level of productivity.  | 105 |
| 4.1.7(a)  | Table 4.1.7(a) shows central value of the overall level of productivity.  | 105 |
| 4.1.8     | Table 4.1.8 shows the number of employees' quality of work life depends on.   | 107 |
| 4.1.9     | Table 4.1.9 shows the number of factors that drive to choose IT as career.  | 108 |
| 4.1.10    | Table 4.1.10 shows whether respondents feel a tough competition for getting a job in IT sector.   | 109 |
| 4.1.11    | Table 4.1.11 shows the perceive level of organizations as a place of work.  | 110 |
| 4.1.12    | Table 4.1.12 shows the level of commitment for a long term career at the organization.  | 111 |
| 4.1.13    | Table 4.1.13 shows the level of satisfaction with the job.  | 112 |
| 4.1.14    | Table 4.14 shows whether respondents face any difficulty while working in IT sector.  | 113 |
| 4.1.15    | Table 4.1.15 shows the level of agreement of factors that cause stress at the workplace.  | 115 |
| 4.1.15(a) | Showing the rank of the factors that cause stress at the workplace  | 120 |
| 4.1.16    | Table 4.1.16 shows the level of agreement of employees' productivity factors.   | 121 |
| 4.1.16(a) | Showing the rank of the employee's productivity factors   | 124 |
| 4.1.17    | Table 4.1.17 shows the impact of work stress on the perceived level of employee productivity.   | 126 |
| 4.1.18    | Table 4.1.18 shows the impact made by the measurement of employee's job satisfaction.   | 130 |
| 4.1.19    | Table 4.1.19 shows the impact made by the coping strategies to consider suitable to reduce stress at the personal level & organizational level. | 132 |
