

ACKNOWLEDGMENT

I extend my heartfelt gratitude to my Ph.D. supervisors, Dr. Amit R. Patel, for entrusting me with one of their ongoing research projects. Their unwavering support, technical discussions, and encouragement have been instrumental in the success of this endeavour. Their mentorship has not only honed my patience and perseverance but also fostered an environment for independent thinking. Their work ethics, sincerity, and humanity will continue to inspire me throughout my life's journey. Additionally, I am immensely thankful to Dr. Piyush P. Gohil, Head of the Mechanical Engineering Department at the Faculty of Technology and Engineering, The M S University of Baroda, for his consistent interest and motivation in my Ph.D. progress. I would like to express my sincere gratitude to the respected Prof (Dr) Dhanesh Patel, Dean of the Faculty of Technology and Engineering, MSU, for his kind words and support.

I also wish to express my sincere appreciation to Mr. Chintan Mulasiya, Maintenance Engineer at Gujarat Alkaline and Chemical Ltd, Gujarat, and the entire team at Pyro Lab, 'F' Block, Department of Mechanical Engineering, Faculty of Technology and Engineering, MSU, for their support during the experiments. Their contributions have been invaluable, and I am deeply grateful to them all. My family members have been pillars of support, and I owe the success of my work to their unwavering love and encouragement. I dedicate this achievement to the silent sacrifices made by my wife and my parents. Throughout this journey, the blessings of elders and the affection of the younger generation have kept me enthusiastic. Lastly, I offer my thanks to Lord Shree Ram for providing me with the strength and fortitude during my Ph.D. pursuit.

Mr. Jay I. Patel
