Acknowledgements

I am profoundly indebted to my guide, Dr. Biswajit S. Chakrabarty for his invaluable mentorship, unwavering support, and extraordinary patience throughout this journey. Sir your guidance has been a cornerstone of my academic and personal growth.

I would like to express my deepest gratitude to my Parents, whose moral support, encouragement and blessings have been instrumental in helping me pursue and achieve my academic aspirations.

My heartfelt thanks to My School, St. Kabir and Mrs. Radhika Tandon for nurturing and shaping me into whatever I am today, and for being the foundation of this incredible journey.

I extend my heartfelt appreciation to my friends, Laxmi and Piyush. We have had a long journey together since the beginning of my dissertation and the knowledge we exchanged during the journey has always played a crucial role in solving some of the toughest questions we had.

I am sincerely thankful to Prof. Sunil Chaki for generously providing the necessary facilities and being a constant source of support whenever I needed assistance. I am also grateful to Prof. KD Patel for the instrumental facilities that significantly contributed to the success of my research.

I am also grateful to Jolly and Dhruvi for their valuable time.

I would like to acknowledge all my students for their patience and understanding throughout this journey. Your support and enthusiasm have been a driving force, and I am truly grateful for your belief in me.

Finally, I would like to express my gratitude to all those who, in ways big and small, have contributed to the completion of this thesis. Your support and encouragement have been deeply appreciated and have played a crucial role in this significant achievement.
