

Acknowledgement

The successful completion of this work would not have been possible without the support and guidance of many individuals, whose contributions I deeply appreciate. Their constant encouragement and wisdom have illuminated my path and ensured the success of this endeavor.

First and foremost, I would like to express my heartfelt gratitude to my supervisor, Dr. Padamnabhi S. Nagar, for his invaluable advice, guidance, and constructive criticism. His encouragement pushed me to reach my full potential and made this work possible.

I am also profoundly grateful to Prof. Vinay M. Raole, Head of the Department of Botany, and Prof. N.S.R. Krishnayya, former Head of the Department of Botany, Faculty of Science, The Maharaja Sayajirao University of Baroda, for providing the necessary resources and facilities to carry out this research. I am grateful to the DRC members who had gave their inputs.

I am also thankful to the all teaching staff of department of botany who were encouraging and guiding me at every turn throughout my college life. Especially, Dr. Dharmendra G. Shah, Dr. Sanket Charola, Dr. Ravinayak Pathlavath and Dr. Kishor S. Rajput.

I extend my sincere thanks to the Indian Forest Service officers of the Forest Department for their support and permission during my field surveys. Special thanks to Dr. Dheeraj Mittal (Former DCF, South Division, Dangs), Mr. Agneeshwar Vyas (DCF, North Division, Dangs), Mr. Anand S. Kumar (Former DCF, Dangs and Current DCF of Vyara), and Mr. Dinesh Rabari (DCF, North Division, Dangs) for their encouragement and facilitation during my work.

My gratitude extends to Prof. Pushpa Robin from VSICMB, The M.S. University of Baroda, for providing permissions and to Ms. Pooja for her assistance with the confocal microscope. I am also thankful to Dr. Anupama and Dr. Prashant from IFP, Pondicherry, for their insights into pollen analysis.

I would like to acknowledge my lab mates—Kalpana Pal, Gulzar Malek, Ankur Rajwadi, Akash Vanzara, Roshan Parmar, and Ritesh Poker—for their camaraderie and support, as well as my senior, Dr. Karan G. Rana and Dr. Mittal Bhatt, for his invaluable assistance during my research.

I would like to extend my deepest gratitude to my best friend, Ms. Shivani Bhati, whose unwavering support, encouragement, and companionship have been a constant source of strength throughout this journey. Your belief in me has been invaluable, and I am forever grateful for your presence in my life.

Friends are a vital source of strength, especially during challenging times. I am deeply thankful to my dear friends—Ms. Divya Das, Mr. Tanmay Rohit, Ms. Meera Rami, Ms. Sanobar Mansuri, Mr. Devendra Solanki, and Ms. Bhavya Mishra—for their unwavering support, encouragement and helping me whenever I needed any kind of help throughout my research journey.

I also extend my gratitude to the ground staff at the Arboretum, The M.S. University of Baroda—particularly Bhailal Bhai and the malis—for their invaluable assistance during my fieldwork and their dedication to the conservation of Asteraceae.

My sincere thanks go to the non-teaching staff of the Botany Department, including Kartik Bhai, Mahesh Bhai, and Arvind Bhai, for their cooperation and support throughout my research.

No words can adequately express my gratitude to my family, whose love, faith, and encouragement have been a source of strength and inspiration throughout my life. I am forever indebted to my beloved parents, whose blessings and affection have helped me achieve this milestone. I am also grateful to my brother and sister for their unwavering belief in me, which has driven me to strive for excellence.

Finally, I would like to thank everyone who has contributed to this work, whether directly or indirectly, and whose names I may have inadvertently missed. Your support and well-wishes have been instrumental in the completion of this research, and I am deeply grateful to all of you.

Sharma Jaydeep Jagdishchandra
