

## List of Tables

Table 1. Unani Polyherbal formulations.....	55
Table 2. Ingredients of Majoon-E-Najah (MN) .....	60
Table 3. Ingredients of Sufoof-E-Najah (SN) .....	61
Table 4. Ingredients of Sufoof-E-Chobchini (SC) .....	62
Table 5. Ingredients of Formulation 1 (F1) .....	63
Table 6. Ingredients of Formulation 2 (F2) .....	63
Table 7. Extraction Methods for Selected Polyherbal formulations Using Different Solvents and Techniques .....	65
Table 8. Enumeration of Unani Medicinal plants of Northwest Gujarat.....	79
Table 9. Enumeration of plant species listed on five different samples .....	91
Table 10. Ingredients in five different samples (PH01-PH05) and relative frequency of citation (RFC) value .....	96
Table 11. Nine common plants found in all five samples .....	100
Table 12. Extraction Methods for Selected Unani Polyherbal Formulations using Different Solvents and Techniques .....	108
Table 13. Antibacterial activity of Majoon-E-Najah (MN) polyherbal extracts.....	112
Table 14. Antibacterial activity of Suffof-E-Najah (SN) Formulation .....	118
Table 15. Antibacterial activity of Suffof-E-Chobchini (SC) Formulation.....	123
Table 16. Antibacterial activity of Formulation 1 (F1) .....	126
Table 17. Antibacterial activity of Formulation 2 (F2) .....	129
Table 18. Antifungal activity of Majoon-E-Najah (MN) polyherbal extracts .....	134
Table 19. Antifungal activity of Suffof-E-Najah (SN) polyherbal extracts .....	137
Table 20. Antifungal activity of Suffof-E-Chobchini (SC) polyherbal extracts.....	140
Table 21. Antifungal activity of Formulation 1 (F1) polyherbal extracts .....	143
Table 22. Antifungal activity of Formulation 2 (F2) polyherbal extracts .....	146
Table 23. DPPH radical scavenging activity (% inhibition) of MN polyherbal extracts .....	149
Table 24. DPPH radical scavenging activity (% inhibition) of SN polyherbal extracts .....	151
Table 25. DPPH radical scavenging activity (% inhibition) of SC polyherbal extracts .....	153

Table 26. DPPH radical scavenging activity (% inhibition) of F1 polyherbal extracts .....	155
Table 27. DPPH radical scavenging activity (% inhibition) of F2 polyherbal extracts .....	156
Table 28. Total Phenolic Content and Total Flavonoid Content of MN Polyherbal Extracts .....	161
Table 29. Total Phenolic Content and Total Flavonoid Content of SN Polyherbal Extracts .....	162
Table 30. Total Phenolic Content and Total Flavonoid Content of SC Polyherbal Extracts .....	163
Table 31. Total Phenolic Content and Total Flavonoid Content of F1 Polyherbal Extracts .....	165
Table 32. Total Phenolic Content and Total Flavonoid Content of F2 Polyherbal Extracts .....	166
Table 33. Pearson's Correlation Coefficient Matrix Between Phytochemical Content and Invitro Pharmacological Activities of MN Polyherbal Extracts .....	169
Table 34. Pearson's Correlation Coefficient Matrix Between Phytochemical Content and Invitro Pharmacological Activities of SN Polyherbal Extracts .....	171
Table 35. Pearson's Correlation Coefficient Matrix Between Phytochemical Content and Invitro Pharmacological Activities of SC Polyherbal Extracts .....	173
Table 36. Pearson's Correlation Coefficient Matrix Between Phytochemical Content and Invitro Pharmacological Activities of F1 Polyherbal Extracts .....	175
Table 37. Pearson's Correlation Coefficient Matrix Between Phytochemical Content and Invitro Pharmacological Activities of F2 Polyherbal Extracts .....	177
Table 38. HPTLC Peak Values for Track 1 (Formulation 1, F1).....	181
Table 39. HPTLC Peak Values for Track 2 (Formulation 1, F1).....	182
Table 40. HPTLC Peak Values for Track 3 (Formulation 1, F1).....	182
Table 41. HPTLC Peak Values for Track 4 (Formulation 1, F1).....	183
Table 42. HPTLC Peak Values for Track 5 (Formulation 1, F1).....	184
Table 43. HPTLC Peak Values for Track 6 (Formulation 1, F1).....	184
Table 44. HPTLC Peak Values for Track 7 (Formulation 1, F1).....	185
Table 45. HPTLC Peak Values for Track 1 (Formulation 1, F1).....	187
Table 46. HPTLC Peak Values for Track 2 (Formulation 1, F1).....	188
Table 47. HPTLC Peak Values for Track 3 (Formulation 1, F1).....	188

Table 48. HPTLC Peak Values for Track 4 (Formulation 1, F1).....	189
Table 49. HPTLC Peak Values for Track 5 (Formulation 1, F1).....	189
Table 50. HPTLC Peak Values for Track 6 (Formulation 1, F1).....	190
Table 51. HPTLC Peak Values for Track 7 (Formulation 1, F1).....	190
Table 52. HPTLC Peak Values for Track 1 (Formulation 2, F2).....	196
Table 53. HPTLC Peak Values for Track 2 (Formulation 2, F2).....	197
Table 54. HPTLC Peak Values for Track 3 (Formulation 2, F2).....	198
Table 55. HPTLC Peak Values for Track 4 (Formulation 2, F2).....	198
Table 56. HPTLC Peak Values for Track 5 (Formulation 2, F2).....	199
Table 57. HPTLC Peak Values for Track 6 (Formulation 2, F2).....	200
Table 58. HPTLC Peak Values for Track 7 (Formulation 2, F2).....	200
Table 59. HPTLC Peak Values for Track 8 (Formulation 2, F2).....	201
Table 60. HPTLC Peak Values for Track 1 (Formulation 2, F2).....	203
Table 61. HPTLC Peak Values for Track 2 (Formulation 2, F2).....	204
Table 62. HPTLC Peak Values for Track 3 (Formulation 2, F2).....	204
Table 63. HPTLC Peak Values for Track 4 (Formulation 2, F2).....	205
Table 64. HPTLC Peak Values for Track 5 (Formulation 2, F2).....	206
Table 65. HPTLC Peak Values for Track 6 (Formulation 2, F2).....	206
Table 66. HPTLC Peak Values for Track 7 (Formulation 2, F2).....	207
Table 67. HPTLC Peak Values for Track 8 (Formulation 2, F2).....	207
Table 68. HRLCMS QTOF Profiling of Ethanol Extract (Formulation 1) for Metabolite Identification in Positive ESI Mode .....	213
Table 69. HRLCMS QTOF Profiling of Ethanol Extract (Formulation 1) for Metabolite Identification in Negative ESI Mode.....	220
Table 70. HRLCMS QTOF Profiling of Ethanol Extract (Formulation 2) for Metabolite Identification in Positive ESI Mode .....	230
Table 71. HRLCMS QTOF Profiling of Ethanol Extract (Formulation 2) for Metabolite Identification in Negative ESI Mode.....	239
Table 72. Glycosides with Identification Details .....	248
Table 73. Alkaloids with Identification Details .....	248
Table 74. Terpenes with Identification Details .....	250
Table 75. Amino acids and Derivatives with Identification Details .....	251
Table 76. Lipids and Derivatives with Identification Details .....	252
Table 77. Fatty acyls with Identification Details .....	253

Table 78. Phenol with Identification Details .....	254
Table 79. Flavanols with Identification Details .....	255
Table 80. Withanolides and Derivatives with Identification Details .....	255
Table 81. Benzene and Derivatives with Identification Details.....	256
Table 82. Esters and Derivatives with Identification Details.....	257
Table 83. Steroids and Derivatives with Identification Details .....	258
Table 84. Carboximic acid with Identification Details.....	258
Table 85. Macrolides and analogues with Identification Details .....	259
Table 86. Herbicide with Identification Details .....	259
Table 87. Bile acids with Identification Details .....	260
Table 88. Cyclohexanols with Identification Details .....	260
Table 89. Insecticide with Identification Details .....	261
Table 90. Isothiocyanates with Identification Details .....	261
Table 91. Glycosides and Derivatives with Identification Details .....	262
Table 92. Tannins with Identification Details.....	262
Table 93. Terpenoids with Identification Details .....	265
Table 94. Alkaloids and Derivatives with Identification Details .....	267
Table 95. Lipids and Derivatives with Identification Details .....	267
Table 96. Fatty acyls with Identification Details .....	269
Table 97. Flavanols with Identification Details .....	269
Table 98. Phenols with Identification Details .....	270
Table 99. Benzene and Derivatives with Identification Details.....	270
Table 100. Steroids with Identification Details.....	273
Table 101. Hydroxy acids and Derivatives with Identification Details .....	273
Table 102. Alpha amino acids and Derivatives with Identification Details .....	274
Table 103. Cyclic alcohols and Derivatives with Identification Details .....	274
Table 104. Ketones with Identification Details.....	275
Table 105. Hydroxy cinnamic acid esters with Identification Details .....	275
Table 106. Furans with Identification Details.....	276
Table 107. Fungicide with Identification Details .....	276
Table 108. Herbicide with Identification Details .....	277
Table 109. Cyclic alcohols and Derivatives with Identification Details .....	277
Table 110. Carboxylic acid and Derivatives with Identification Details.....	278
Table 111. Tetra pyrroles & derivative with Identification Details .....	278

Table 112. Glycosides with Identification Details .....	279
Table 113. Coumarin and Derivatives with Identification Details.....	279
Table 114. Amino acids and Derivatives with Identification Details .....	280
Table 115. Alkaloids with Identification Details .....	281
Table 116. Lipids and Derivatives with Identification Details .....	283
Table 117. Fatty acyls with Identification Details .....	285
Table 118. Terpenoids with Identification Details .....	287
Table 119. Heteroaromatic compound with Identification Details .....	287
Table 120. Steroids and Derivatives with Identification Details .....	288
Table 121. Ester and Derivatives with Identification Details .....	289
Table 122. Benzene and Substituted Derivatives with Identification Details .....	290
Table 123. Unsaturated hydrocarbons with Identification Details .....	291
Table 124. Macrolides and Analogues with Identification Details .....	291
Table 125. Keto acids and Derivatives with Identification Details .....	292
Table 126. Insecticide with Identification Details.....	292
Table 127. Bile Salt with Identification Details .....	293
Table 128. Glycosides with Identification Details .....	294
Table 129. Alkaloids with Identification Details .....	294
Table 130. Terpenoids and Derivatives with Identification Details.....	295
Table 131. Lipids and Derivatives with Identification Details .....	296
Table 132. Fatty acyls with Identification Details .....	297
Table 133. Steroids and Substituted Derivatives with Identification Details .....	299
Table 134. Flavonoids and Derivatives with Identification Details .....	301
Table 135. Macrolides and Analogues with Identification Details .....	301
Table 136. Benzene and Substituted Derivatives with Identification Details .....	302
Table 137. Coumaric acids and Derivatives with Identification Details .....	302
Table 138. Furopyran with Identification Details .....	303
Table 139. Pteridines and Derivatives with Identification Details.....	303
