

CONTENTS

CHAPTER		PAGE NO.
	Introduction	
I.	Poly (vinyl alcohol)-Aromatic hydroxy acid types resins, Experimental Results and Discussion	22-68
II.	Poly (vinyl chloride)-Aromatic hydroxy acid types resins Experimental Results and Discussion	69-107
III	Poly (vinyl acetate)-Aromatic hydroxy acid types resins. Experimental Results and Discussion Reference	108-142
IV.	Introduction Synthesis and Characterisation of amphoteric ion-exchange resins. Experimental, Results and Discussion Reference Introduction	163-213
V.	Thermogravimetric Analysis of resin samples Experimental Results and Discussion	217-252
VI.	Electrical Properties of resin samples Experimental Result and Discussion Reference	253-281
	Summary	289-294
Appendix	List of Publications based on present work	295
