Scoring Key - (PACT)

Given below are the score values of the response alternatives of each item.

Item No.	<u>Alternatives</u>			
	A	B	C	D
1	1	2	4	3
2	1	2	4	3
3	2	1	3	4
4	1	3	4	2
5	4	3	2	1
6	4	1	2	3
7	3	1	2	4
8	1	2	4	3

Total score of eight questions represents class-trust score of a student. Maximum possible score of PACTS is 32 and minimum 8. If a person answers less than 8 items calculate his total score for 8 items (Formula = $\frac{\text{His total on the items answered}}{\text{No. of items answered}} \times 8$). Thus if a person answers only 6 items and gets a score of 18 on 6 items his total score would be ~~18/6 = 3~~ $18/6 \times 8 = 24$. Reject those in which less than 6 items have been answered.
