

## LIST OF TABLES

| TABLE<br>NO. | TITLE OF THE TABLES  | PAGE<br>NO. |
|--------------|--|-------------|
| 1            | Sample Distribution  | 62          |
| 2            | Distribution of sample in terms of other variables                                     | 63          |
| 3            | Scale wise test-retest coefficient of correlation (LASSI)                              | 67          |
| 4            | Scale wise reliability coefficient (SLOP)  | 73          |
| 5            | A 2X2X3 Factorial Design for Attitude  | 82          |
| 6            | Number and Mean scores on Attitude   | 83          |
| 7            | Number and Mean scores of High, Middle and Low Academic Achiever on Attitude           | 83          |
| 7(A)         | Mean Differences and their significance  | 84          |
| 8            | A 2X2X3 factorial Design for Motivation  | 87          |
| 9            | Number and Mean Scores on Motivation   | 88          |
| 10           | Number and Mean Scores of High, Middle and Low Academic Achievement on Motivation      | 88          |
| 10(A)        | Mean Differences and their Significant   | 89          |
| 11           | A 2X2X3 Factorial Design for Time Management   | 92          |
| 12           | Number and Mean Scores on Time Management  | 93          |
| 13           | Number and Mean Scores of High, Middle and Low Academic Achievement on Time Management | 93          |
| 13(A)        | Mean Differences and their Significance  | 94          |
| 14           | A 2X2X3 Factorial Design for Anxiety   | 96          |
| 15           | Number and Mean Scores on Anxiety  | 97          |

| TABLE NO. | TITLE OF THE TABLES   | PAGE NO. |
|-----------|---|----------|
| 16        | Number and Mean Scores of High, Middle and Low Academic Achievers on Anxiety                      | 97       |
| 16(A)     | The Mean Difference and their Significance  | 98       |
| 17        | Interaction between Sex and Types of School   | 98       |
| 17(A)     | Mean Differences and their Significance   | 99       |
| 18        | A 2X2X3 Factorial Design for Concentration  | 102      |
| 19        | Number and Mean Scores on Concentration   | 103      |
| 20        | Number and Mean Scores of High, Middle and Low Academic Achievers on Concentration                | 103      |
| 20(A)     | Mean Differences and their Significance   | 104      |
| 21        | A 2X2X3 Factorial Design for Information Processing   | 106      |
| 22        | Number and Mean Scores on Information Processing  | 107      |
| 23        | Number and Mean Scores of High, Middle and Low Academic Achiever on Information Processing        | 107      |
| 23(A)     | Mean Differences and their Significance   | 108      |
| 24        | Interaction between Sex, Types of School and Levels of Academic Achievement on Information Proces | 108      |
| 24 A      | Mean Differences and their Significance   | 109      |
| 25        | A 2X2X3 Factorial Design for Selecting Main Ideas   | 114      |
| 26        | Number and mean Scores on Selecting Main Ideas  | 115      |
| 27        | Nubmer and Mean scores of High, Middle and Low Academic Achievers on Selecting Main Ideas         | 115      |
| 27(A)     | Mean Differnces and their Significance  | 116      |
| 28        | A 2X2X3 Factorial Design for Self-Testing   | 118      |
| 29        | Number and Mean Scores on Self-Testing  | 119      |

| TABLE NO. | TITLE OF THE TABLES   | PAGE NO. |
|-----------|---|----------|
| 30        | Number and Mean Scores of High,Middle and Low Academic Achievers on Self-Testing              | 119      |
| 30(A)     | Mean Differences And their Significance   | 120      |
| 31        | Interaction between Sex and Levels of Academic Achievement                                    | 121      |
| 31(A)     | Mean Differnces and their Significnace  | 121      |
| 32        | A 2X2X3 Factorial Design for Study Aids   | 125      |
| 33        | Number and Mean Scores on Study Aids  | 126      |
| 34        | Number and Mean Scores of High,Middle and Low Academic Achievers on Study Aids                | 126      |
| 34(A)     | Mean Differnces and their Significance  | 127      |
| 35        | A 2X2X3 Factorial Design for Test Strategies  | 129      |
| 36        | Number and Mean Scores on Test Strategies   | 130      |
| 37        | Number and Mean Scores of High,Middle and Low Academic Achievers on Test strategies           | 130      |
| 37(A)     | Mean Differneces and their Significance   | 131      |
| 38        | A 2X2X3 Factorial Design For Total Learning Strategies  | 133      |
| 39        | Number and Mean Scores on Total Learning Strategies   | 134      |
| 40        | Number and Mean Scores of High,Middle and Low Academic Achievers on Total Learning Strategies | 134      |
| 40(A)     | Mean Differences and their Significance   | 135      |
| 41        | Main Effects of Mother's Education on Learning Strategies                                     | 141      |
| 42        | Number and Mean Scores of Students on Learning Strategies with respect to Mother's Education  | 142      |
| 43        | Number and Mean Scores of Students on Attitude with respect to their Mother's Education       | 143      |

| TABLE NO. | TITLE OF THE TABLES  | PAGE NO. |
|-----------|--|----------|
| 43(A)     | Mean Differences and their Significance  | 143      |
| 44        | Number and Mean Scores of Students on Total Learning Strategies with respect to Mother's Education | 144      |
| 44(A)     | Mean Differences and their Significance  | 144      |
| 45        | Mean Effects of Father's Education on Learning Strategies  | 147      |
| 46        | Number and Mean Scores of students on Learning Strategies with respect to Father's Education       | 148      |
| 47        | Number and Mean Scores of Students on Attitude with respect to their Father's Education            | 149      |
| 47(A)     | Mean Differences and their Significance  | 149      |
| 48        | Number and Mean scores of students on Learning Strategies with respect to Father's Education       | 150      |
| 48(A)     | Mean Difference and their Significance   | 150      |
| 49        | Main effects of Mother's Occupation on Learning Strategies   | 153      |
| 50        | Number and Mean Scores of Students on Learning Strategies with respect to Mother's Occupation      | 154      |
| 51        | Main Effects Father's Occupation on Learning Strategies  | 156      |
| 52        | Number and Mean Scores of Students on Learning strategies with respect to Father's Occupation      | 157      |
| 53        | Main Effects on Family Income on Learning Strategies   | 159      |
| 54        | Number and Mean Scores of Students on Learning Strategies with respect to Family Income            | 160      |
| 55        | Number and Mean Scores of Students Attitude with respect to Family Income                          | 161      |

| TABLE NO. | TITLE OF THE TABLES   | PAGE NO. |
|-----------|---|----------|
| 55(A)     | Mean Differences and their Significance   | 161      |
| 56        | Number and Mean Scores of Students on Concentration with respect to Family Income                   | 162      |
| 56(A)     | Mean Differences and their Significance   | 162      |
| 57        | Number and Mean Scores of Students on Learning Strategies with respect to Family Income             | 163      |
| 57(A)     | Mean Difference and their Significance  | 163      |
| 58        | Main Effects of Types of Family on Learning Strategies  | 166      |
| 59        | Number and Mean Scores on Learning Strategies with respect to Types of Family                       | 167      |
| 60        | Effects of Student's Involvement in CCA on Learning Strategies                                      | 168      |
| 61        | Number and Mean scores of Student's on Learning Strategies with respect to their Involvement in CCA | 169      |
| 62        | Main Effects of Tuition Classes on Learning Strategies  | 171      |
| 63        | Number and Mean Scores on Learning Strategies with respect to Tuition Classes                       | 172      |
| 64        | Correlation between Learning Strategies and Learning Orientation                                    | 176      |
| 65        | Scores Obtained by Mr.A on Learning Orientation Profile   | 185      |
| 66        | Scores Obtained by Mr.A on Learning And Study Strategies Inventory                                  | 189      |
| 67        | Subjectwise Marks Obtained by Mr.A  | 191      |
| 68        | Scores Obtained by Miss B on Learning Orientation Profile   | 195      |
| 69        | Scores Obtained by Miss B on Learning And Study Strategies Inventory                                | 197      |
| 70        | Subjectwise Marks Obtained by Miss B  | 198      |

| TABLE<br>NO. | TITLE OF THE TABLES   | PAGE<br>NO. |
|--------------|---|-------------|
| 71           | Scores Obtained by Miss C on Learning<br>Orientation Profile            | 203         |
| 72           | Scores Obtained by Miss C on Learning<br>And Study Strategies Inventory | 204         |
| 73           | Subjectwise Marks Obtained by Miss C                                    | 205         |
| 74           | Scores Obtained by Mr.D on Learning<br>Orientation Profile              | 208         |
| 75           | Scores Obtained by Mr.D on Learning<br>And Study Strategies Inventory   | 210         |
| 76           | Subjectwise Marks Obtained by Mr.D                                      | 212         |
