

ACKNOWLEDGEMENTS

=====

It is not difficult for one to realise, that after working for an advanced degree that the number of persons deserving individual recognition for contributing to the attainment of the degree is much too lengthy to be specifically listed.

At the outset I express my heartfelt gratitude to my guide Professor M.B.Buch, Head, C.A.S.E. It is the very unusual combination of erudite scholarship, magnanimous demeanor and deep understanding of human problems which attracted me to work under his inspiring guidance. I record my deep sense of appreciation to enjoy the prestigious opportunity to work with a personality that he is.

My eloquent appreciation goes next to the young learners associated with this study, whose unflinching enthusiasm and interest proved to be instrumental in bringing about all the success in this endeavour. Their co-operation in the scorching, sweltering summer days of Bengal during the entire period of experiment was indeed a rewarding experience.

I appreciate all possible co-operations extended by the Heads and subject teachers of different institutions for conducting this study.

It has also been my privilege to have necessary statistical guidance from Dr.B.K.Passi, the then Reader, C.A.S.E. Dr.D.C.Joshi deserves special mention for extending his everhelping hands in any of the problems and occasions.

:iii:

I express my gratitude to the authorities of the U.G.C., Advanced Centre of Education, M.S. University of Baroda for awarding Teacher-Fellowship which facilitated this research work.

Prof. K.P.Choudhury, Dean, Faculty of Education, Kalyani University, and the authority of the Kalyani University deserve special grateful notes for granting me leave for this period of study.

With all appreciation I remember the help of my colleagues, Shri D.N.Sansanwal and Shri S.Mallick at different stages of my study. I shall ever appreciate the pleasing manner and ungrudging help of Smt. S.Padhye, Librarian, C.A.S.E at any moment of need.

My thanks are due to Shri B.D.Mistry for his careful, earnest and responsible efforts connected with the entire typing work of this study.

Words fail to express my feeling to my parents who always encouraged for my advanced education and therefore, took all the troubles to look after my little daughter.

A special expression of gratitude must be extended to my young daughter for her understanding and acceptance of the need to live without mother for a couple of years.

Finally, this is my privilege to extend my admiration, appreciation and deepest feelings to my husband Shri K. Chakraberti for his constant encouragement and inspiration. Uncomplaining, untiring, sacrificing all his leisures, often taking the place of a mother, he deserves so much of the credit for my reaching the most coveted level of education.

Once again, I appreciate the help of my friends and colleagues who helped in this study in one way or other.

June 1977.

MUKTI CHAKRABERTI
