

## ACKNOWLEDGEMENTS

I am thankful to several persons for help received in one form or another in carrying out the investigation. Pressure on space restrains me from recording specific mention of them all. However, I would be failing in my duty if I were not to acknowledge such help but for which the investigation would have well-nigh been impossible.

My deep sense of gratitude goes to my guide Prof. M. B. Buch whose inspiring guidance and continued encouragement has been in no small measure responsible for the accomplishment. The debt is irredeemable.

My special thanks are due to the Centre of Advanced Study in Education for grant of Senior Research Fellowship which facilitated the investigation and to the Directorate of School Education, Madras for permitting me to avail of the offer of Fellowship.

My thanks are due to the Corporation of Madras, several other concerned school authorities and particularly, the teachers constituting the sample for permitting classroom observations.

My special thanks are due to Dr. A. B. L. Srivastava of Asian Institute of Educational Administration and Planning, New Delhi, and Shri D. S. Tyagi of

Agro-Economic Centre, Sardar Patel University, Vallabh Vidyanagar for their valuable suggestions regarding the statistical treatment of the data in the investigation.

Finally, I thank my wife very much for affording me sustained personal encouragement and typing the manuscript.

Baroda,

January 21, 1972.

M. R. SANTHANAM
