

## LIST OF TABLES

| TABLE |   | PAGE |
|-------|---|------|
| I     | Flanders' Interaction Analysis System                     | 82   |
| II    | Summary of Partial Correlations - I/D's                   | 174  |
| III   | Summary of Partial Correlations - i/d's                   | 175  |
| IV    | Summary of Analysis of Variance (Least Squares) - I/D's   | 177  |
| V     | Summary of Analysis of Variance (Least Squares) - i/d's   | 179  |
| VI    | Principal Components of Communication<br>- Sex            | 189  |
| VII   | Teacher Response - Initiation - Sex                       | 195  |
| VIII  | Teacher Instantaneous Response - Initia-<br>tion - Sex    | 197  |
| IX    | Extent of Constructive Integration - Sex                  | 199  |
| X     | Incidence of Vicious Circle - Sex                         | 201  |
| XI    | Analysis of Steady State Teacher Talk -<br>Sex            | 203  |
| XII   | Content Orientation in Steady State<br>Teacher Talk - Sex | 204  |
| XIII  | Content Cross Components - Sex                            | 206  |
| XIV   | Content Emphasis Segments - Sex                           | 207  |
| XV    | Analysis of Praise/Encouragement - Sex                    | 209  |
| XVI   | Teacher Reactions to Student Talk - Sex                   | 214  |
| XVII  | Pupil Talk - Sex  | 219  |
| XVIII | Prompt to Pupil Talk - Sex                                | 221  |
| XIX   | Significant Sequences of Pupil Talk<br>- Sex              | 222  |
| XX    | The Context of Silence/Confusion - Sex                    | 227  |
| XXI   | The Role of Silence/Confusion - Sex                       | 229  |
| XXII  | Principal Components of Communication<br>- Marital Status | 238  |

| TABLE   |  | PAGE |
|---------|--|------|
| XXIII   | Teacher Response - Initiation -<br>Marital Status                    | 242  |
| XXIV    | Teacher Instantaneous Response -<br>Initiation - Marital Status      | 244  |
| XXV     | Extent of Constructive Integration -<br>Marital Status               | 245  |
| XXVI    | Incidence of Vicious Circle - Marital<br>Status                      | 246  |
| XXVII   | Analysis of Steady State Teacher Talk<br>- Marital Status            | 248  |
| XXVIII  | Content Orientation in Steady State<br>Teacher Talk - Marital Status | 249  |
| XXIX    | Content Cross Components - Marital<br>Status                         | 251  |
| XXX     | Content Emphasis Segments - Marital<br>Status                        | 252  |
| XXXI    | Analysis of Praise/Encouragement -<br>Marital Status                 | 254  |
| XXXII   | Teacher Reaction to Student Talk -<br>Marital Status                 | 261  |
| XXXIII  | Pupil Talk - Marital Status  | 263  |
| XXXIV   | Prompt to Pupil Talk - Marital Status                                | 265  |
| XXXV    | Significant Sequences of Pupil Talk -<br>Marital Status              | 266  |
| XXXVI   | The Context of Silence/Confusion -<br>Marital Status                 | 271  |
| XXXVII  | The Role of Silence/Confusion - Marital<br>Status                    | 272  |
| XXXVIII | Summary of Analysis of Variance (Subject<br>Taught) - I/D's          | 275  |
| XXXIX   | Summary of 't' Tests - I/D's   | 277  |
| XL      | Summary of Significantly Different<br>Subject Pairs - I/D's          | 278  |

| TABLE   |   | PAGE |
|---------|---|------|
| XL I    | Summary of Analysis of Variance<br>(Subjects Taught) - 1/d'               | 280  |
| XL II   | Summary of 't' Tests - 1/d's  | 282  |
| XL III  | Summary of Results of Darwin Tests  | 291  |
| XL IV   | Some General Features of Interaction<br>in Different Subjects             | 293  |
| XL V    | Break-up of Vacant Cells in Different<br>Subjects                         | 296  |
| XL VI   | Principal Components of Communication<br>in Different Subjects            | 299  |
| XL VII  | Some General Features of Communication<br>in Different Subjects           | 302  |
| XL VIII | Indirect Teacher Behaviour in Different<br>Subjects                       | 304  |
| XL IX   | Teacher Response - Initiation in<br>Different Subjects                    | 307  |
| L       | Teacher Instantaneous Response -<br>Initiation in Different Subjects      | 308  |
| LI      | Extent of Constructive Integration in<br>Different Subjects               | 310  |
| LII     | Incidence of Vicious Circle in Different<br>Subjects                      | 312  |
| LIII    | Teacher Steady State Ratio in Different<br>Subjects                       | 314  |
| LIV     | Analysis of Steady State Teacher Talk<br>in Different Subjects            | 316  |
| LV      | Content Orientation in Steady State<br>Teacher Talk in Different Subjects | 317  |
| LVI     | Content Cross Components in Different<br>Subjects                         | 319  |
| LVII    | Content Emphasis Segments in Different<br>Subjects                        | 320  |

| TABLE |   | PAGE |
|-------|---|------|
| LVIII | Analysis of Praise/Encouragement in Different Subjects    | 323  |
| LIX   | Teacher Reaction to Student Talk in Different Subjects    | 331  |
| LX    | Pupil Talk in Different Subjects                          | 334  |
| LXI   | Prompt to Pupil Talk in Different Subjects                | 336  |
| LXII  | Significant Sequences of Pupil Talk in Different Subjects | 339  |
| LXIII | The Content of Silence/Confusion in Different Subjects    | 346  |
| LXIV  | The Role of Silence/Confusion in Different Subjects       | 348  |
